

MEXICO ARMS TO CURB PLOTS

STATE WITNESS VOLTS DEFENSE IN HALL INQUIRY

Saw Couple Berated by Woman.

(Picture on back page.)
Saw couple berated by woman, who is conducting the investigation of the four-year-old murder of the Rev. Dr. Edward W. Hall and his wife, Mrs. Hall, in the Hall home in New Brunswick, N. J., Aug. 17.—(Special.)

At the same time he announced that he would close his case tomorrow and believed that he had produced enough evidence to warrant a grand jury to indict Mrs. Frances Stevens, widow of the slain rector; her brother, Willie Stevens, and her cousin, Henry de la B. Carpenter, for the murder.

The surprise witness was William O'Rourke, a contractor, who testified that on the night the Rev. Dr. Hall and Mrs. Mills were shot to death under the Jersey crab apple tree, he saw a woman who resembled Mrs. Hall talking to a couple he thought looked like the minister and Mrs. Mills.

Could Not Identify Them.
O'Rourke admitted he was unable to identify the three persons he saw beyond a resemblance. He said that he knew Dr. Hall, Mrs. Mills and the woman who was with them, but that he could not identify them.

A man and two women were standing in front of the Parker House for the first time in New Brunswick, N. J., Aug. 17.—(Special.) This is a half mile from the site of the abandoned Phillips farm, where the clergyman and his wife were shot to death.

It was the contractor's impression, based on the way the three persons were standing, that the older woman "was looking into" the man and his companion.

Mrs. Mills in Minister's Lap.
O'Rourke was followed on the stand by Barbara Tough, the little middle-aged Scotch woman, who for seven years before the murders was a maid in the Hall home in New Brunswick.

She said, after tortuous interrogation, that she believed Mrs. Hall had been ignorant of the affair between her husband and Mrs. Mills, but that she knew Mrs. Mills was in the minister's lap.

She testified coming into the vestry room of Mrs. Hall's church one day and finding Mrs. Mills sitting in the minister's lap.

"She jumped up and was very nervous for a second," said Barbara Tough, "and then she looked at me and said, 'It's all right, it's all right.'"

Among those who preceded O'Rourke on the stand this afternoon was James John Underwood of the Jersey City police.

He testified of arresting "Willie Stevens and of Willie's hysterical behavior." He said:

NEWS SUMMARY

LOCAL.

Mrs. Katherine Scudder Neff, Chicago society matron, burned to death when cottage is destroyed at Roaring Brook in Michigan.

Bankers and traction chiefs get together with city officials and take step in settling the transit problem.

Seize two at Sterling, Ill., as suspects in death of Amelle Francher from attack.

Village authorities and property owners win delay in Dempster street and Waukegan road grade crossing experiment.

PUTS CATHOLIC WOMEN IN JAIL AS RINGLEADERS

Uprisings Planned in Ten States.

BULLETIN.

Mexico City, Aug. 17.—(U.N.)—A battle between troops and citizens in Chalchicomula, state of Zacatecas, is reported by passenger train crews, according to reports from Durango. Reinforcements have been sent to Chalchicomula.

BY JOHN CORRYN.

(Chicago Tribune Press Service.)

Mexico City, Aug. 17.—The Mexican army, 55,000 strong, was electrified into sudden, unusual activity today as the result of revelations arising from the arrest of prominent Catholics following the San Angelo riot and Catholic activities in other towns of the Valley of Mexico. Those under arrest are accused of furthering a plot for a revolution.

Mexican government agents announced they had found evidence of extensive revolutionary plans, with ramifications in ten states and covering more than half the republic.

More than 100 persons, including several prominent Catholic women, were arrested yesterday and today. The women leaders are said to be playing a very important part in promoting the movement against the government. Some wealthy Catholic women are accused of furnishing funds to buy arms.

Place Troops at Strategic Points.

The war department has issued orders for military units commanders to prepare for the movement of troops immediately to any part of the zone where they are needed in case of uprisings.

The searching of Catholic residences in numerous towns and villages continues in the efforts to find arms and evidence of plot activities. Incoming trains from the north and south, and boats from the Gulf coast also are being searched for war materials.

Troops are being hurried to strategic points from which they may dominate extensive areas in parts of Mexico, which are reported as centers of Catholic plotting.

Self at Estrada's Plan.

Gen. Enrique Estrada, successful attempt to cross the American border is connected in the popular imagination with the plot denounced by police. However, a prominent army general scoffed at this, adding: "Gen. Estrada is not considered dangerous as he is lost in the streets during the De la Huerta revolt. With 7,000 men, he could not be so easily defeated."

The Guadalupe front he allowed Oregon to bluff him for two months with less than 1,000 regulars and 1,500 raw recruits. If the Catholics want to start an insurrection they must find a more competent leader than Gen. Estrada.

Indians Hide Arms.

It is reported from several states where trouble is expected that the Indians are hiding arms, as they always have done whenever the government has attempted disarmament of the peasants. A military authority here estimates that more than 50,000 stands of arms are in the hands of the Indians and agrarian peasants, and that at no time in the history of Mexico have so many arms and so much potential trouble been in the hands of the masses.

Fifty per cent of the Indians in the states of Guanajuato, Mexico, Michoacan, Guerrero, Jalisco, Puebla, Oaxaca, and Vera Cruz possess all kinds of firearms, from fowling pieces to army rifles. It is charged that rich Catholics, including several women, are furnishing funds to arm the peasants of the interior.

Denies Revolt Plotting.

Catholic societies are holding meetings from early night until past midnight. These meetings apparently are what induced the government to move quickly and search hundreds of Catholic houses, whose owners are known to have furnished meeting places for their co-religionists.

At Catholic headquarters the revolutionary story was made light of. A Catholic leader said to The Tribune today: "If I personally wished to stir up revolt, in so far as my own parish is concerned, I could have my whole congregation in arms in two hours. Every priest throughout Mexico could do the same. This is the best answer to the charges that the Catholics had a revolt prepared for Sunday last."

"If we intended to revolt we would not act in such a stupid way. We are honestly attempting to do what we can for the people."

Cottage Fire Brings Death to Mrs. Neff

(Picture on back page.)

Mrs. Katherine Scudder Neff, north side society woman, wife of Nettleton Neff, real estate broker, was burned to death at her cottage yesterday in a fire of mysterious origin at her summer cottage located at Roaring Brook, a small colony near Harbor Springs, Mich.

A carpenter, Gene Pifer, was working on the Neff garage when he heard an explosion and a woman's scream. Hastening to the cottage, a two-story frame structure, he found the lower floor enveloped in flames.

Unable to Rescue Her.

Pifer then broke a kitchen window and discovered Mrs. Neff amid the flames. He attempted to pull her to safety, but owing to her weight was unable to do so. Pifer himself was slightly burned. Upon trying to enter the house he found the door locked. In a few minutes and before other help could arrive the cottage had burned to the ground.

Local authorities said the fire apparently had started from a small wood burning stove. It is thought that Mrs. Neff may have poured kerosene on the fire to hurry along a fire. At any rate, an explosion was first heard.

Children at Beach.

Mrs. Neff's two younger children, Richard, 13, and Louise, aged 11, were playing at a nearby beach. They were informed of their mother's death by Mrs. William J. Sinclair of the Drake hotel, Chicago, who has a neighboring cottage, and who is returning this morning with the children.

Mrs. Neff was the daughter of the late William Scudder and sister of J. Arnold Scudder of 3029 Sheridan road and William Scudder of 38 Scott street. Both are out of the city. Mrs. Neff was 44 years old.

Wayne Neff, 15 years old, a Harvard student, and his sister, Barbara, aged 17, are now touring Europe with their father. At a late hour last night they had not been located to be informed of Mrs. Neff's death. The Neff home in Chicago is at 50 Bellevue place.

Other Chicagoans at the resort, all friends of the Neffs, were Mrs. W. J. Jackson, wife of the chairman of the C. & N. railroad; Mrs. Lawrence Adams, and Mrs. Harold Elmsdale. They explained that because the Neff family took their meals at the Roaring Brook inn, no servants were at hand to help in the rescue work.

Thousands of Birds Die During Electrical Storm

Stops Bluff, Ind. Aug. 17.—(U.N.)—Thousands of dead birds fell to the ground during a severe electrical storm which swept across western Indiana. More than 100 of the birds were coupled in one yard here.

MAGAZINE AD TELLS WHERE TO GET DRINK IN LONDON; U. S. BARS IT

New York, Aug. 17.—(U.N.)—A tentative decision barring an English magazine from the United States, because it contains advertisements for alcoholic liquor, was made known today by customs officials.

A section of the national prohibition law which makes it illegal to advertise "anywhere, by any means, the manufacture, sale, keeping for sale or furnishing of liquor" was cited by Edward Barnes, acting solicitor of the customs office.

He said that the monthly, The Key to London, published for the information of American tourists, was temporarily barred as "an illegal importation" pending a final decision by federal authorities because it told where, in England, one might purchase a certain brand of cherry brandy.

HAS DAUGHTER FIRE AT MAN FOR CALLING HER

Annoyed by repeated calls of "O. Helen," in the alley outside her home at 2412 Thomas street, last night, Mrs. Helen Bartels got out the family rifle and handed it to her 14-year-old daughter, Margaret.

"I don't understand this thing," she said. "You take it and shoot that man who is in the alley."

Margaret fired through a screen door and struck Peter Scarselli, 25 years old, of 2428 Hudson street. He walked to St. Mary's hospital, where he was wounded, a scratch on the forehead, was treated. He admitted that he had been drinking.

Police Nab Terre Haute Trio and Cargo of Alky

Lieut. George Goggin and his detective bureau squad early this morning became suspicious of an automobile driven by a woman at 31st street and Colfax avenue. As they neared it, the car speeded away. After a chase of half a mile the police overtook the fugitive and arrested James P. Roman, his wife, Josephine, and Oscar Moore, all of Terre Haute, Ind. In the car were sixty gallons of alcohol and an automatic shotgun, and both Roman and Moore carried revolvers.

Senator Fernald of Maine Ill but Reported Better

West Poland, Me., Aug. 17.—(U.N.)—Improvement in the condition of U. S. Senator Bert M. Fernald, who is ill at his home here, was noted tonight by his physician, Senator Fernald's illness has been diagnosed as intestinal poisoning.

Former Greek Premier and Party Chief Arrested

(Chicago Tribune Press Service.)

ATHENS, Aug. 17.—M. Papamastorakis, leader of the democratic union and former Greek premier, was arrested again this afternoon.

Watch Over Life Thread of Valentino

BULLETIN.

New York, Aug. 18.—(Special.)—Valentino was resting comfortably at 1:30 o'clock this morning, hospital physicians reporting that he was obtaining the benefits of refreshing sleep.

New York, Aug. 17.—(Special.)—Tomorrow is expected to bring the crisis in Rudolph Valentino's fight for his life against the ravages of peritonitis which set in following an operation upon the film star for appendicitis and gastric ulcers Sunday night.

At a late hour tonight a "death watch" had been established by physicians, newspaper men and confidantes of the stricken movie idol lest death should creep on the star unaware during the night.

At 7 p. m. the last official bulletin from the bed of Valentino at Poly-clinic hospital was issued.

"There is no change in Mr. Valentino's condition. His temperature is 103.6, respiration 26, pulse 108."

Despite the heightened temperature, the film star's physicians assert that his condition is no worse than that of this morning and yesterday.

Nourishment Injected.

Two other bulletins earlier in the day reported that he had passed a fairly comfortable night. He is unable to take nourishment. Injections of glycogen sustained his strength.

An armed detective was placed on guard outside of Valentino's room on the eighth floor of the hospital this afternoon following the sudden appearance of a young man who checked doorman and quietly walked upstairs. He pleaded to pray at the bedside, but was hustled away before he began his devotions.

Admirer Is Hysterical.

To keep the hospital lobby clear of inquiring women and girls, an information bureau was established. A girl, who seemed to be in a highly nervous condition, presented some verses she had written to her "beloved." When she was told she could not see Valentino she became hysterical. A young dancer appeared with a monkey. She thought it might amuse him. The telephone operators were kept busy answering calls.

Notables Display Concern.

Joseph M. Schenck, president of the United Artists corporation, and his wife, Norma Talmadge, came to the hospital early in the morning following their arrival from Poland Springs, Maine. They had left their summer home there upon news of the star's illness.

Mae Marsh, Mayor Walker, and Fred Stone made inquiries over the wire. Miss Jank, with whom the star has been seen in night club groups, and Jean Acker, his first wife, whose slave bracelet he still wears, telephoned, too.

Just before this evening's bulletin was issued, St. George Ullman, Valentino's manager, received a frantic long distance telephone call from Michael Romano, assistant in the state's attorney's office in Chicago, who said reports were current in Chicago today that Valentino had died. Upon being assured that such was not true, Romano hung up, evidently relieved.

Doug and Mary Cable.

One of many expressions of sympathy received by the star was a cablegram from Douglas Fairbanks and Mary Pickford, who are now in Paris. "Very sorry to hear of your sudden illness," it read, "but we know your marvelous constitution will aid your recovery."

Charlie Chaplin sent a telegram from Los Angeles urging Valentino to keep up the fight, as "everybody needed him."

Newsman Urges United Front.

Citing a letter sent to the committee several weeks ago, the attorney explained that what he had to say was simply an elaboration of Mr. Blair's previous position, which was, in brief, that the whole traction problem is one that must be solved by state legislation.

troverly into state-wide difficulties that would bring about an impossible outcome.

"I don't want to hold anybody up to ridicule, but I want it clearly understood that the time has passed when the big Chicago traction interests can go over the heads of the public and get what they want from Springfield."

"The basis of our trouble is the fact that you gentlemen have not agreed among yourselves. To ask this committee to try to please everybody when you do not know yourselves what is acceptable, places it in an impossible position."

"Take the question of subways. The newspapers have been criticizing this administration, asking why we don't begin digging. You and everybody else know that subways cannot be dug when we don't know who will use them, the terms, income, and so on. We are ready to make a fair contract, but how can we until the traction interests get together?"

Mr. Harty to the Chief.

Ald. Jacob Arvey then asked Mr. Shuman whether Mr. Blair was willing to come in and discuss with the committee any kind of an ordinance coupled with enabling legislation.

"Yes, if you will remove it," was the answer. "Let us discuss principles first and let it in the details to the ordinance later."

"What Mr. Blair wants to do, in other words, is to go down to Springfield, get another bill and then throw it into the face of Chicago," declared Ald. McDonough.

Acrimonious remarks were then thrown in by other aldermen, but the statement by Mr. Shuman that Mr. Blair was "willing to discuss principles" had taken the sting out of the discussion and paved the way for an agreement to start the series of conferences. The peace note was sounded further by Mr. Insull's statement.

"I have always been ready and willing to discuss anything with the city council," Mr. Insull said. "Of course, if you ask me to discuss this specific ordinance that is now pending certainly I would not. However, if you ask me if the elevated lines are ready to enter a general discussion—which we do not desire at this time, although we do—I would be glad to send representatives to take part."

Ready to Agree on Subways.

"As I have said before in a letter—at which the press took so much of offense—I feel that the problem is essentially a surface lines affair. But we are ready to cooperate in any way that we can."

"As for subways we are willing to enter into any kind of agreement as to the use and rental of subways that the traffic therefrom will warrant. We are also willing to enter into a unification of the elevated and surface lines or arrange a system of transfers. I don't know that I am competent to say which would be the best way."

Replying to a remark that the traction magnates had been evading the committee, Mr. Insull said he "resented the imputation of an alder-

Protests Hold Up Two Grade Highway Crossing Experiment

Pavement widening, rather than a temporary timber trestle to separate highway grades, will solve the serious congestion problem at the Dempster street and Washington highway intersection, according to 300 property owners and village officials who appeared before the road and bridge committee of the county board yesterday to protest the grade separation experiment at that point.

The committee deferred action on the experimental trestle when George Brennan, attorney for Morton Grove and Niles Center, Mayor Herbert Dils of Morton Grove and property owners declared that property damage from the proposed structure would amount to approximately \$1,000,000.

Mr. Blair, who is already widening stretches of Dempster street to make a 50 foot pavement, it was pointed out, and Morton Grove has its widening campaign well under way.

It was announced that village authorities, cooperating with the county and forest preserve board, will be able to double the width of Dempster street and that property owners along Washington road will dedicate strips of land, if necessary, to double the pavement width on that old main highway.

Highway officials pointed to the protest meeting as another illustration of the need of immediate action in widening all of the main arterial highway pavements to 40 feet, and declared that villages throughout the county will do their share in the widening program.

Mr. Blair, who is already widening stretches of Dempster street to make a 50 foot pavement, it was pointed out, and Morton Grove has its widening campaign well under way.

CAPTURE TWO AS SUSPECTS IN PRASCHER CASE

New Stories of Attacks on Girls Told Police.

Two men arrested in Sterling, Ill., last night were said by the police there to answer the description of the pair from whose auto Amelle Prascher leaped, fracturing her skull, an injury from which she died.

The description was given to the Chicago police by Helen McInerney, who also jumped from the auto, but was not seriously hurt.

Miss McInerney will see if she can identify the suspects today.

Child Tells of Attack.

Police were confronted by three new cases of criminal assault upon girls yesterday.

An eight year old Normal Park girl was one of the latest victims. After listening to her story, the child's father, a physician, turned her into the hands of a police officer.

But before he could reach the Park Detective Sergeant Piper and Burke of Englewood station had taken into custody Stanley Papak, 18 years old, 1018 North Fifth street, who was in charge of the booth.

Papak is said to have lured the girl into the rear of his booth. He was hurried to the Englewood station to save him from possible mob violence.

Police Seize Accused Man.

Previously, police of Deering station arrested George Neuman, 23.

years old, 9019 South Canal street, said to be an attaché of the Municipal court, on the charge of holding a 16 year old girl prisoner in a vacant store left for two hours.

Later, it is charged, Neuman took the girl to the home of a woman living on Wallace street, where she was held for several days. The woman was arrested.

A father residing at Cicero caused the arrest of Michael Casper, 19 years old, charging that Casper had lured his 13 year old daughter to a loop hotel. A warrant also was issued for the proprietor of the hotel.

The police last night were holding Booker Jefferson, 22 years old, a Negro, of 184 West 34th place, Jefferson is reported to have confessed at taking a colored girl. The police questioned him about a 10 year old colored girl whose mutilated body was found in a south side alley.

Grand Jury to Get Facts.

State's Attorney Gove yesterday announced that information concern-

ing all recent rape cases will be presented early next week at a special session of the August grand jury.

Assistant State's Attorney Joseph Nicolai will direct prosecution of all cases of attacks on girls and women.

Life terms in the penitentiary, the full penalty provided by law in rape cases, will be asked in each case that comes to trial, State's Attorney Gove said.

Search is being made for two Melrose Park youths, Charles Carr and John Wyalles, accused by three girls and implicated by the confession of Albert Fietak, a painter of Bellwood.

Fietak made a statement to Leroy Davidson, chief of highway police, and is held under \$10,000 bonds.

Jack Lewis, 16 years old, 6942 South Union avenue, and A. L. Binder, 20, 6430 South Sangamon street, are held by the police on charges of mistreating a 15 year old school girl. George Diesel, 17, father of three children, is held on a similar charge.

DROP OF FRANC WRECKS FRENCH TEXTILE FIRM

PARIS, Aug. 17.—An important textile firm of north France has failed for \$5,000,000 francs (about \$1,000,000).

The bankruptcy is alleged to be due to difficulties resulting from the change situation. The owner of the company, it is said, ordered large stocks of wool from England when the franc was selling at 160 to 180 to the pound without buying the necessary currency to cover the operation.

When the time came to pay, about six weeks ago, it was necessary to buy the pounds at practically double that figure and the firm found it impossible to meet the \$5,000,000 franc charges maturing in July, August and September.

Assets, including the plant equipment, are said to be 40,000,000 francs, while the accrued liabilities are 55 million.

MEXICO SEEKS NEW CITIZENS OF LATIN BLOOD

Hopes to Build Middle
Class on Farms.

BY JOHN CLAYTON.
Chief Correspondent of The Tribune, who returned recently after a month's investigation in Mexico.

President Calles' anti-foreign policy does not stop with preventive measures. He is seeking to fill the gap which will result from the refusal of foreign money to come to Mexico.

President Calles wants to throw open the country to immigrants who will become Mexican citizens. He wants to develop the uncultivated lands of the country and colonize them with foreign immigrants, chiefly of Latin races, who will supply material for Mexico's armies and prevent the influence of the United States in Mexico from spreading.

To fulfill this plan the President has inaugurated a program of irrigation which will make fertile millions of acres. Twenty-seven big dams will be built and the lands dependent on them will be checker-boarded with Mexican families and immigrants on tracts of 40 to 500 acres.

Plan Originated by Americans.
The idea for this colonization scheme originated in the brains of two Americans, Juan Brittingham and Harry Chandler, president of the Colorado River Land company. The Chandler-Brittingham interests planned years ago to bring in colonists to take over the rich Colorado delta lands and farm them. Before Calles and Oregon found the plan good and are adopting it for the whole country. But where the Americans were inclined to prefer British, German and Austrian colonists, Señor Calles is frankly favoring Latin immigration, chiefly Italian. Latins will be easier to assimilate into the Mexican nation, he feels.

Work of developing the vast governmental project is in the hands of Americans. The contracting firm of J. G. White & Co. is building the dams, which are financed from tax receipts and assessments on lands which will be benefited. If owners are unable to pay their allotments, portions of their land will be accepted by the government in payment.

Poems Prove Poor Farmers.
President Calles has been forced to search the foreign markets for colonists because his Indian peasants are not capable of carrying out the development scheme. He tried out one big colony in the Colorado delta, and it has not proved to be a success. Ten thousand acres of the best land in the valley were placed at the disposal of the government for the experiment. I visited every part of the colony and found the crops do not measure up to within fifty per cent of those on surrounding lands. Tilled by Chinese, Japanese and...

COOLIDGE THINKS NO INTERVENTION IS WISE DECISION

Mexico Holds Diplomatic
Usage Whip Hand.

BY ARTHUR SEARS HENNING.

(Chicago Tribune Press Service.)

Washington, N. Y., Aug. 17.—No intervention in Mexico at this time is the official pronounced decision today of President Coolidge.

After an all day discussion of the situation in Mexico with Secretary of State Kellogg the President today publicly disclosed his conclusion that the United States government would not be warranted in according to the request of the Knights of Columbus for intervention in the Mexican church struggle.

In defining the administration's Mexican policy, however, the President stated that the United States would not be warranted in according to the request of the Knights of Columbus for intervention in the Mexican church struggle.

There is no authority under diplomatic usage, international law, or treaty rights to intervene in purely domestic affairs of another government.

The President today defined the course he intends to pursue toward Mexico without mention of the great Roman Catholic organization or its formal demand for intervention submitted to Mr. Kellogg last week, and without indicating whether the administration will vouchsafe a formal answer to the memorial.

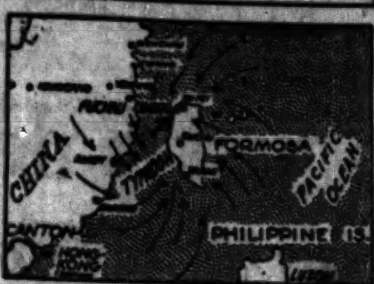

Legislative for Evidence Kept Open.

It is clear, however, from the official explanation of the administration attitude, that it is a reply given it will be confined to the declaration that the United States government is not warranted by the facts as far as they have been established. It remains open for the knights to submit the charges of injuries and indignities to American citizens at the hands of the Calles government, and is expected that James A. Flaherty, former knight of the Catholic order, will seek an early appointment with the President for this purpose.

The President revealed that Secretary Kellogg had informed him there had been only one specific complaint in behalf of an American citizen.

According to that complaint the Mexican government, in taking possession of church property, had seized a piece

GUNBOAT LOST

(Chicago Tribune Press Service.)

PEKING, Aug. 17.—Naval radio messages report the United States gunboat Ashcroft helples in the severest typhoon in years near the Nan-kan, or Nankai, islands of Formosa. Commander Irving H. Mayfield sent an S. O. S. to the President Hayes reporting an 180 mile wind was in the small harbor, all the anchors were out and orders were given for engine full ahead in an effort to hold. The naval transport Henderson radiated that it is making for the Nankai islands. Whereupon the President Hayes continued to Hongkong. Monday afternoon the Ashcroft's radio suddenly was silenced. Since then the Ashcroft flagship or legation wireless has been unable to hear it.

of property belonging to an American citizen. Upon receipt of the complaint the state department lodged a protest with the Mexican foreign office and the Mexican government replied that the matter would be adjusted.

There were no other complaints of infringement of American property rights, the President was informed, and no complaints at all of bodily injuries to American citizens. Whether Americans had suffered indignities the President regards as pretty difficult to determine, as "indignities" is an exceedingly broad term.

What's an "indignity?"

If it be an "indignity" to be expelled from Mexico, Americans have suffered indignities, for American clericals and other American citizens have been expelled under article 23 of the Mexican constitution giving authority to expel any person the government may desire to put out of the country.

This in Mexico is commonly called "three-fifths" American citizens. Whenever it has appeared there had been no act seeming to give just ground for expulsion. The American ambassador at Mexico City has interceded, sometimes successfully and sometimes unsuccessfully, it is officially admitted.

All Foreigners Treated Alike.

The administration, it appears, has not felt warranted in interceding to prevent the expulsion of American clericals from Mexico, inasmuch as these expulsion measures have been applied to all foreign clericals alike.

In the controversy over confiscatory oil lands the President is satisfied that the Mexican government has made large concessions, but critics of the administration have challenged the state department to show any material concession by the Mexican government.

Under Calles Order.

BY MARY ONAHAN GALLERY.

In a modest little home on the extreme southwest side are two unusual guests. They are exiled nuns from Mexico. They are Sisters Mary Baptista and Columba of the Order of The Blessed Sacrament.

There is a teaching order and they had a number of houses in Mexico. The superior of the house in Durango, which was their home, is an American citizen, born in Texas. She is still in Durango, living in disguise at the house of a friend not far from the convent, as she is anxious to keep an eye on the property the sisters worked so many years to accumulate.

Only four of the twenty-eight sisters in this convent managed to escape from Mexico in the night and in various disguises. The rest are still there, scattered in the homes of friends and living on their charity.

Don't Pupils' Clothing?

"We have done all we could to get along with the government," said Sister Baptista. "When the order came on Feb. 17 that we should no longer dress as nuns, we obeyed and put on secular dress. Our pupils brought us some of their clothes and their mothers, but when we put them on they all cried and said we were no longer nuns and that their old teachers were gone."

That did not satisfy the government, though, and on March 10 the order came for us to leave the convent. Officials said it was to be closed. We were not allowed to take anything at all except the clothes on our backs.

"We never meddled in politics at all. Our ideals were surely not dangerous. Just to teach the children to earn their living and to save their souls. But the trouble was the Mexican government does not grant that the children have souls. Calles openly boasted that when he became president the name of God must not be heard in Mexico. Some of the most prominent Mexican women are in jail."

Tells of Convent Closing.

Asked about other orders of nuns, the sisters told of the closing of the Visitation convent in Mexico City. Mother Temple, a woman of culture and standing in the community, was given one hour in which to get all her sisters out. Six of them were very ill with typhoid and when she asked the soldiers if they at least might not be given a little more time they replied: "Sister, we are Catholics and we would like to grant this to you, but we do not dare. We would be most severely punished. You must all be out in an hour."

"How do you account for the fact

AMERICAN GIRL WILL WED TURKISH FIANCE AND EMBRACE ISLAM

Buffalo, N. Y., Aug. 17.—[U. N. I.]—An attractive American girl has given up her Christian faith to marry Abraham Ahmet, a Turk, proprietor of a restaurant here. Ahmet has renounced the traditions of his fathers and taken a vow of monogamy to make Clara Violet Nelson his bride. Miss Nelson will embrace Moham-medanism.

"Yes, I am going to become a Mohammedan," Miss Nelson said. "I love Abraham so much I want to embrace his religion."

that with so large a percentage of the Mexican people Catholic that men like Calles have got to the top?" Sister Baptista was asked.

"Mexico did not elect Calles," she replied. "The best people there were all against him. But you must remember that the Mexican is very poor; he works for thirty cents a day, and so when any one offers him fifty cents or a dollar for his vote it seems a large sum. The Russian bolshevik propaganda is back of him, as was shown by the fact that when the soviet ambassador arrived in Mexico Calles declared a national holiday."

Once Driven to Cuba.

"O, yes, we have had troublesome times in Mexico. We were turned out of Madero's time, but we managed to keep together and opened schools in Cuba. Then when quiet seemed to be established again we came back, against the advice of our friends, too. Maybe we should not have done so, but we love the Mexican people."

The four nuns who escaped came as young novices from Limerick eighteen years ago. They are uncomplicated. "God surely will see that things come right in the end and we must be patient," they say.

ANOTHER COUNTY JOINS WAR UPON AUTO TRAPPERS

Three thousand motorists who have been arrested in villages of Lake county will be given an opportunity to expose any speed traps operating in that district, it was announced yesterday by Charles J. Mueller, assistant state's attorney in charge of the Cook county speed trap crusade.

Mr. Mueller declared that direct cooperation between his office and that of State's Attorney A. V. Smith of Waukegan has been established. The Chicago Motor club bureau of inquiry, under Attorney Joseph Braun, already has sent questionnaires to all motorists whose names appear on Lake county books.

The motor club will establish another branch of the speed trap inquiry bureau in Lake county to carry on there the sort of grand jury investigation work already done in Cook county.

Hunt Murderer Who
Escaped from Stateville

Penitentiary guards and deputy sheriffs last night were searching the countryside in the vicinity of Joliet for Clarence Langford, a convict who sawed his way out of the new Stateville prison early yesterday morning. After cutting through the bars of a cell, Langford is believed to have scaled the outer walls of the penitentiary. He was sentenced for life on a charge of murder.

25 ARE TAKEN IN POLICE DRIVE TO WIPE OUT GANGS

Find Beer Runners Going
Back to Labor Slugging.

(Pictures on back page.)

Three close-mouthed, semi-stellar members of the gangland gentry were among some twenty-five underworld characters seized yesterday by police squads cruising about the city under orders of Chief of Detectives William C. Schoemaker, who wants the killers hunted, haunted, and harried out of town.

The select trio, of greatly varying talents except for their common lawlessness, were tonight led a raid on a

TONY KISSANE, beer runner of days when the beer business was best, whose arrest gave the first definite proof of the police suspicion that the liquor gangsters, hustled out of that trade, have turned back to the labor game of terrorism and extortion.

Slain Smith's Pal Taken.

SAMMY THE GREENER JACOBSON, called that since he came to gangland a greenhorn from Russia, the boss confederate of the recently murdered Louis Smith, and marked as the next victim of the snuffing out process, according to police information.

SAM KAPLAN, successor to Julius Portugese, leader of a small-time gang of outlaws, whose death, the police say, was avenged by the murder of Smith. Kaplan and Jacobson are regarded as sworn enemies.

Leut. Maurice Byrne of the detective bureau last night led a raid on a poolroom at 806 Forquer street. Five men were taken into custody. Among them were Louis Schiavone, 841 South Halsted street, and Frank Rahml, 1111 Vernon Park place, said to be aligned with west side gangs.

Even of the others taken were seized in the clubhouse of the Ragen Club at 1142 South Halsted street, which for nearly twenty years has been rated the best of the south side schools of crime. Chief Schoemaker's orders were to throw all the tough ones into cells, and to keep throwing them back as fast as lawyers and writs can turn them out.

"Some time their money will run out," the chief declared.

Stunt Shift to Labor Slugging.

Interest was manifested in Kissane's reported shift from booze to labor slugging. For since the murder of Morris Markowitz, a teaming contractor killed by union thugs, the police have been quietly investigating the reported drift of the liquor peddlers back to the once lucrative labor racket.

Kissane, arrested with William Thomas of 1885 Kostner avenue, a policeman dismissed from the force for liquor dealing, announced he was a

CRIMINAL COURT.
James Smith and Thomas Shays, released, returned to jail after a life term by Judge John P. McGowan.

business agent for the Lumber Material Yard and Laborers' union, and that he worked for Sam P. Luzzo, vice president of the Chicago Building Trades council, now reported on vacation in Wisconsin with former Mayor William Hale Thompson. The former policeman declared he was another of Luzzo's business agents.

Schoemaker asked Kissane why he left the liquor running business.

"It's too tough a racket," was the gangster's reply. "Right now, I'm sitting pretty. A good job, not an enemy wanting to chase me out of it, and easy money."

Deputy Chief John Stege took Kissane and Thomas to the office of State's Attorney Crowe, who was questioning the witnesses to the Markowitz murder with an announced purpose of punishing the killer speedily as an object lesson to any of the labor gangsters who anticipate an easy harvest at the old stand.

On the chance that Kissane might have been in the automobile with Roy Tagney, business agent for the Machinery Movers and Riggers' union, named as the actual slayer, the witnesses were asked to look him over, but none identified him.

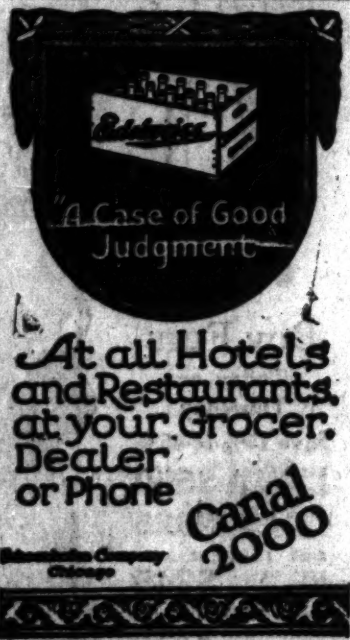

They're Mum as Usual.

Kaplan and Jacobson showed the customary defiance when questioned, and both were wearily ignorant of any facts concerning liquor feuds.

"Don't you know that Portugese's pals are going to kill you next?" Schoemaker asked Jacobson. "Your pal, Smith, went down before the bullets of Julius' friends, and we hear you are next."

"Let 'em lay for me if they think I'll be 'em any good," Sammy the Greener shrugged. "He was released after Morris' death, 1007 South Ridgeway avenue, a witness to the shooting of Smith, had failed to identify him as having been on the scene."

Kissane and Kaplan were booked on the old standing charge of the police, disorderly conduct. They put up bonds and went on their way.

CANTON JUNGLE CHIEF DENIES HE KILLED MELLETT

Near Collapse at End of Grilling.

(Picture on back page.)

Cleveland, O., Aug. 17.—(Special.)—It is a lie, I did not do it," Louis Maser, Canton jungle chief, charged with first degree murder in connection with the slaying of Donald R. Mellett, Canton publisher, although almost on the verge of collapse after an all day grilling, during this denial at United States District Attorney E. A. Bernstein and Joseph E. Roach, of Chicago, Canton clean-up man, tonight.

Maser, who with his chief, Carl Studer, is charged with conspiracy to violate the liquor laws, was led back to his cell in the county jail to await further grilling tomorrow.

Meanwhile, Detective Ora Slater, George V. Armstrong, Earl Hexamer, acting chief of police of Canton, and Roach have returned to Canton, where it is expected three more murder warrants will be sworn out.

Investigation in Cleveland.

Canton was the scene of the murder of Donald R. Mellett, but Cleveland has become the scene of the investigation, because Roach believes that here the investigation can be conducted without interference.

Four powerful factors are linked by the investigators in an attempt to force a confession from Maser. They are:

The plea of his aged parents that he tell his side of the story.

His identification by a witness as the man who tried to hire the witness to "beat up" Mellett.

His fear that he would have to stand alone in the murder charge and that he would be forced to play the part of the goat for the higher-ups.

His alleged desire for drugs.

Maser was between two fires. He was alternately grilling by District Attorney Bernstein and Roach and by Detective Slater and Armstrong.

Attorney Was Threatened.

Norman E. Clark, Canton attorney, who has represented both Maser and Studer, admitted tonight that he had told Bernstein that Maser had threatened him.

He is said to have told the district attorney that Maser had told him Detroit gunmen were out to get Serg. "Big" Wise. Wise led the majority of Canton's liquor raids when they were made.

According to Clark, Maser thinks he knows something and is going to talk. Clark says he knows nothing.

Carl Streitenberger, Canton patrolman, said tonight that he could verify Maser's alibi. He said that Maser was with him until 1 o'clock the morning of the murder.

Policeman Has Alibi.

Buffalo, N. Y., Aug. 17.—(Special.)—Patrolman Streitenberger said tonight that he was prepared to give testimony that will be a complete alibi for Louis Maser, charged with the murder of Don R. Mellett, Canton publisher, Streitenberger is attending a fraternal convention here.

PROFESSOR MARRIES HIS DREAM GIRL 5,000 FEET UP IN THE CLOUDS

New York, Aug. 17.—(Special.)—In an airplane 5,000 feet above Central park Dr. Henry C. McKown, university professor and former army aviator, took Miss Ruth I. Hord, a Mount Pleasant (Tenn.) school teacher, as his bride today.

The ceremony was performed by the Rev. Leslie J. Barnes of the Morning-side Presbyterian church and was witnessed by W. H. McMullen, pilot, and Miss Elizabeth Wornock of Pittsburgh, a friend of the bride.

The plane was up in the air just forty-five minutes. After reaching the 5,000 foot altitude the pilot shut off the motor and the words of the marriage ceremony were plainly heard by the plane's five occupants. The couple left by boat for Bermuda.

CHICK HANNON GIVES THRILL TO RODEO CROWDS

With Bulldogging as Done in New Mexico.

Dick Shelton, of North Fort Worth, Tex., with a record of 84 seconds for 3 steers, was still leading for the steer wrestling championship last night in Soldiers' field, where he threw a 900 pound steer in 22 seconds, which is fast enough for anybody.

Dick's friend who stood close to the track watching him and holding the 10 weeks old baby, for Dick and his

family are living in true western fashion in a small brown tent pitched in the wilds of Grant park, near the field.

Mabel Strickland Leads.

Four of the nine races in the girls' and men's relay racing contests were finished last night, with Mabel Strickland, spectacular rider from Hollywood, Cal., far ahead in the girls' race and Carl Arnold of Stanley, N. M., and Murph Palmer of Cheyenne tied for the men's championship.

At the finish of last night's calf roping contest Richard Merchant of Carlsbad, N. M., was well ahead toward the championship title with a record of 108.1 seconds for roping four calves. Lee Robinson was a close second with 113.4 seconds. Everett Bowman with 117.4 and Bob Crosby with 121 seconds.

New Mexico Day at Rodeo.

It was New Mexico day at the rodeo yesterday. Among the honor guests from that state were Lorenzo Delgado, official representative of Gov. A. T. Hannett and sheriff of San Miguel county; George Arriola of Santa Fe, a Roosevelt youth rider in the Spanish American war; Thomas Degado, state game warden and ex-sheriff of Santa

Fe county; Dick Pfaffe, owner of the San Gabriel ranch at Alcalde, and Jack Thorpe, cowboy poet. Louis L. Zimmerman, secretary of state for Illinois, was also a guest.

Bonnie McCarroll was badly shaken up when she rode "Lightning" in the girls' riding contests, and Mabel Strickland was slightly injured and considerably shaken up by her mount. Slim Cankey's right arm was hurt in the steer wrestling event and J. W. Harris missed severe injury where his wild horse crashed with him into the fence. Aside from minor hurts there were no casualties.

Some Snappy Work.

If you've never seen a man wrestle with a wild steer—and win—you should have seen Chick Hannon from Miles, Mont., where they "grow beef steaks on four feet," fight his way to first place in the afternoon bulldogging event, in 13.25 seconds.

Or if you've never seen a cowboy tear a mile a minute after a fleet, brown calf, catch it with a deft swing of his lariat and tie it ready for branding, you missed something worth seeing when Jim Coffey from Las Vegas, N. M., caught and tied his 300-pound calf in 20 seconds.

BREWERS VOTE STRIKE; BERLIN FACES DROUGHT

BERLIN, Aug. 17.—Berlin is threatened with a prohibitionlike drought. Workmen in the breweries voted to night to strike for a wage increase of a dollar a week. The employers said they could not pay it because the recent bad weather had decreased the beer trade.

They said, however, that if the weather became warmer they would grant the increase. The workers contended that the fine weather in the German capital for the last few days had resulted in a heavy demand for beer, a demand that has been helped by the thrills of American tourists; consequently they insisted on the raise.

The date for starting the strike is to be decided tomorrow by the brewery workers.

STORE WINDOW SMASHED. Two bricks, neatly wrapped and tied to represent candy boxes, were hurled through the windows of Leroy Cohen, tobacconist and candy seller at 613 St. Charles road, Harvard, at an early hour yesterday. He blamed trade rivals.

A new PEERLESS the Roadster-coupe for \$1565

HERE'S an idea that's far ahead of the times—one that foretells a leading body design for 1927.

A coupe—compact, cozy, weather-proof. Low and racy as a roadster. With a rumble seat in the rear that seats two in comfort.

And it's a Peerless Six-80. A car that's good to look upon—everything in finish, spirited action, rugged dependability you'd naturally expect from a Peerless.

Astonishingly easy to handle, too. Hydraulic 4-wheel brakes, of course. Balloon tires—lacquer

finish—bumpers front and rear—everything you need in the way of equipment.

And think of the price—\$1565—for a Peerless!

Can you conceive of a car better adapted to a business man's use—or for the woman who often drives alone!

No unnecessary size—yet with ample space for occasional passengers.

The Peerless dealer will be glad to show you the Roadster-coupe or any other Peerless model—and let you drive it yourself. Phone him and it will be delivered to your door for you to try.

Convenient as electric light—

Dependable as the dawn—

Simpler than ice—

This modern electrical method keeps foods fresh and pure—much longer—

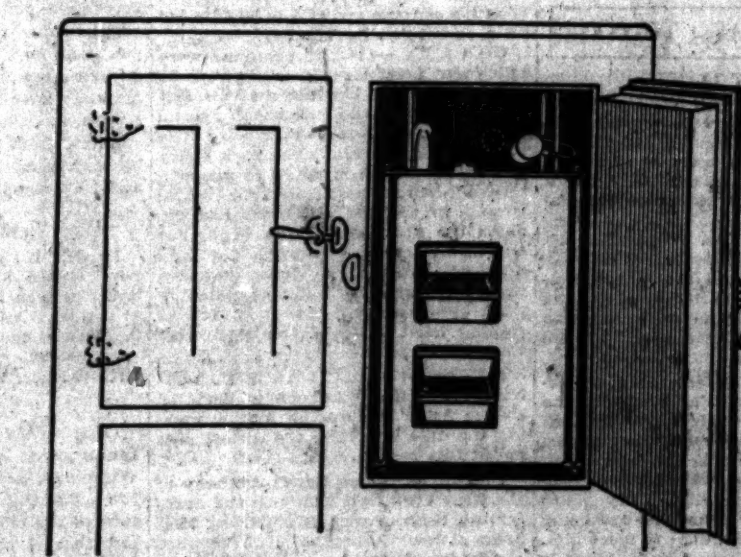

You must have a cold refrigerator. It must be cold all of the time—not just some of the time.

There should be a better and more efficient way than continually melting ice to keep your refrigerator cold. To keep your family's foods fresh and wholesome!

There is a better way. It keeps food three and four times longer. It operates without attention. It gives, every minute, the low temperature real refrigeration requires—lower than ice can ever give.

It is the Ice Maid way. You have plenty of little ice cubes for the table and for cold drinks. You make all sorts of pleasing frozen desserts, and entertain more delightfully than ever before.

People wonder at the crispness of your salads;

the tenderness of your meats, the full-ripe sweetness of the fruits you serve.

The Ice Maid has fifty years of exact engineering behind it. The Service of its maker is known around the world.

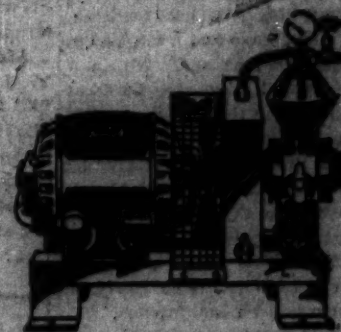

Drawing on this vast experience, the Ice Maid has reduced electric refrigeration to its uncomplicated essentials. It is the smallest, lightest, most compact unit made.

And it is sold, installed, and guaranteed by its maker; there is never any question about the responsibility for its performance.

The first of a short series of monthly payments places the Ice Maid in your own refrigerator—you pay for it instead of ice.

It will be interesting to see the Ice Maid in operation. It will be worth a moment to get further information. Call, phone, or write our nearest branch office.

A NEW QUEEN REIGNS WHERE ICE WAS KING

FORCE FAILS TO MAKE U. S. DRY, CHURCHMANSAYS

F. Ernest Johnson Again Gives His Views.

F. Ernest Johnson, whose views on a year ago evoked bitter protests in dry circles and loud choruses of give from professional wets, last night told in audience in the Hyde Park Y. M. C. A. some more of his opinions on the problem of quenching the nation's thirst.

Mr. Johnson is research secretary of the Federal Council of Churches and in this capacity created a furor last October when he issued six articles indicating that the council had found "enforced prohibition" a pretty much of a fiasco. He spoke last night as an individual lecturer, but made it clear that he was reflecting his official findings and that these views haven't

changed much since he stirred up the rumble.

Must Have Sentiment with It.

The researcher said that he has become convinced that there never will be successful enforcement in the large cities until there is an overwhelming acceptance of the prohibition law. Mr. Johnson is scheduled to tell his listeners just how this can be gained when they gather at the same meeting place next Tuesday night.

"The enforcement of the prohibition law is in reality not the real issue before the nation in relation to the liquor problem," Mr. Johnson said. "No reform measure becomes effective through being enforced; it becomes effective through being accepted and then enforcement tends to take care of itself."

Concert of Will.

"When a reform measure—one that concerns the rank and file in their daily practice and their personal habits—is under consideration not even a large majority is sufficient in the way of social sanction. There are those who teach that government rests primarily and eventually on force. That doctrine is repugnant in a democracy. Our kind of government rests upon concert of will and purpose.

"To obey the law because it is the law is not a winning slogan in a democracy. What we who believe in prohibition must do is to convince those who withhold their support from it that it is morally right and socially desirable."

Mr. Johnson declared what he de-

scribed as a tendency to pass the buck to the government. He held it to be the government's function to leave small leggers and swiggers to state and municipal enforcement and strike at the wholesalers so long as the law exists in its present form.

Must Educate Public.

Although reserving detailed comment on the cure for his next address, Mr. Johnson said that education along the lines of the evil effects of strong drink would eventually bring about acceptance of prohibition laws.

"We know where the demand for liquor is to be found; only God knows where the supply comes from," Mr. Johnson said. "Education must be aimed at the demand and there will be no need to have a supply."

At the conclusion of his lecture Mr. Johnson received a measure of silent hooting, listeners having given the privilege of questioning him through the use of cards.

"Wheat King" Thrashing 500,000 Bushels on Farm

Billings, Mont., Aug. 17.—(AP)—Thomas D. Campbell, called the "world's wheat king," is in the midst of what is believed to be the largest single thrashing enterprise in agricultural history. On the 45,000 acres he has under cultivation on the Crow Indian reservation he is thrashing a wheat crop which he estimates will reach a half million bushels. Upwards of 250 men are employed.

SAYS HER LOAN MADE HIM RICH; ASKS FOR DIVORCE

Raymond G. Hancock, president of the R. G. Hancock company, 35 North Dearborn street, was made defendant in a suit for divorce filed yesterday in the Superior court by Mrs. Antoinette K. Hancock, who is at Lake Geneva, Wis.

Mrs. Hancock charged that her husband built a fortune on \$19,000 she gave him in 1912. His money is now being spent on other women, particularly a Miss Grace Koller, according to the wife's charges. She asked for an injunction restraining Hancock from disposing of any of his property pending a settlement of her claims. The real estate dealer has an income of \$25,000 yearly, she stated in her plea for alimony.

The Hancock family home is at 6730 West Ohio street.

Queen Victoria of Sweden Grows Weaker; Premier Ill

STOCKHOLM, Aug. 17.—(AP)—Latest bulletin from Sollden, Oeland, Sweden's Queen Victoria's condition is somewhat weaker. Her physicians describe her lung trouble as worse, but her heart trouble as a little better. Sweden's new premier, Carl Gustav Ekman, is also ill, suffering from a blood clot, but his condition is not alarming.

TINKHAM CHARGE COVER FOR WETS' BUDGET: WHEELER

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 17.—(Special.)—Representative George Holden Tinkham's demand for prosecution of the Anti-Saloon League of America and its officials as violators of the federal corrupt practices act is based on "alcoholic charges . . . as groundless as the wet cause is hopeless," according to Wayne B. Wheeler, the league's general counsel.

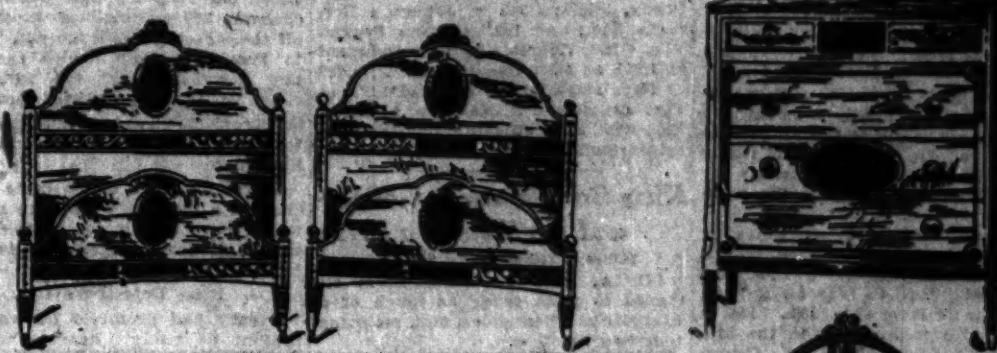

In a formal reply to Tinkham's "tirade," as he characterizes the Massachusetts congressman's charges, Wheeler reiterates his contention that only a small proportion of the league's income is used for "political purposes" and that the sum so spent by the national organization has been fully reported from time to time.

"Mr. Tinkham," declared Wheeler in the statement, "yells 'stop thief' to hide the corrupt, lawless activities of the wets who back him. The Anti-Saloon League has told the truth about its income and disbursements. If the wets were as frank, their budget would make the money spent by the league look like thirty cents."

LIGHTNING KILLS THREASURES

Cedar Rapids, Ia., Aug. 17.—(Special.)—Richard Burns, 17, was killed by lightning near Center Point late today while working at a thrashing machine. Other members of the crew were shocked but not injured. A heavy rainstorm broke the heat wave which had existed for several days.

Scholle's Semi-Annual Sale of Good Furniture

LOUIS XVI. DECORATED MAPLE BEDROOM FURNITURE

	Sale Price
Twin Beds, each	\$ 66.00
Full Size Bed	73.00
Dresser	142.00
Chest	114.00
Dressing Table	123.00
Bench	27.00
Chair	30.00
Night Stand	32.00

YOU'LL find that beauty in furniture doesn't always mean a high price. The bedroom group illustrated here proves that; look at the furniture; look at the prices.

It is a very simple expression of the type of the Louis XVI. period; made of curly maple with satinwood finish. The pieces are embellished with very attractive decorations.

These decorations are interesting; they are taken from original designs by an Italian artist, Pengolesi, who was employed by Hepplewhite and Adam Brothers, the great furniture master-craftsmen of the later 18th century. His rare and beautiful mark has survived and is reproduced now.

This furniture is merely a part of this richest of fine merchandise now being sold at very low prices during our sale. All of it is "Scholle-quality," all of it guaranteed to satisfy or money back.

The opportunity for advantageous buying is a genuine one.

We List Below

Some very Special Bargains that will interest you and that can neither be duplicated here nor any place else.

INDIANA JAIL HOLDS M'ERLANE, CHICAGO GUNMAN

Gangster's Life at Stake
in Coming Trial.

[Pictures on Back Page.]
Frank McErlane, notorious beer runner and gangster, finally is on his way to justice, according to the authorities of Lake county, Indiana, into whose custody he was given yesterday by Judge John P. McGorty in the criminal court.

McErlane, accused many times by the police in gang war killings, but invariably managing to escape, real trouble, will have to face an Indiana jury in a trial for his life. He is charged with taking part in the killing of Thaddeus Fancher, Crown Point attorney.

For several months McErlane, through Attorney Benedict J. Short and Michael Ahern, has been fighting against being extradited to Indiana. Judge McGorty finally ruled yesterday that reasonable ground for trying McErlane before an Indiana jury had been established. The judge then ordered a plea for a habeas corpus writ to be dismissed.

McErlane in Indiana Jail.
"We have a case against McErlane which should send him to the electric chair," said Sheriff Ben Strong and Assistant State's Attorney James McVey when they had McErlane safely lodged in the jail at Crown Point.

The murder for which McErlane is to be tried occurred May 4, 1924, in the Highway roadhouse near Crown Point. John O'Reilly, who recently turned state's evidence and named McErlane, is serving a life sentence for that crime.

The trip from Chicago to Crown Point was made in about one hour. McErlane was guarded by three auto loads of detectives and deputy sheriffs armed with machine guns. McErlane, riding in the second auto, was handcuffed to Deputy Sheriff Henry Rietz.

Says They Drive Too Fast.
"I am afraid you fellows are driving too fast," was the only comment McErlane made to his guards on the trip to Indiana.

McErlane was placed in cell No. 10, which is in the middle of murderers' row. This is an extra safeguard against escape, according to Donald Metz, the jailer, who said that he will see that the prisoner gets no books or other such privileges, which were extended to him in the county jail. McErlane gave his occupation as that of a clerk.

It takes you to the
Dunes
and back

A trip that every Chicagoan promises himself. Now, while summer's still here, take a holiday to the Indiana Dunes, picnic along their wilderness trails. Round trip to Tremont—gateway to the new Indiana Dunes State Park—\$2. Three-day return limit.

33,994 IN CITIZENS' MILITARY TRAINING CAMPS OF COUNTRY

[Chicago Tribune Press Service.]
Washington, D. C., Aug. 17.—(Special.)—Reports received by the secretary of war from the 1926 citizens' military training camps disclose a total enrollment to date of 33,994, it was announced today.

Enrollments in the middle west show 1,168 students at Fort Sheridan, 601 at Camp Custer, Mich.; 264 at Fort Brady, Mich.; 1,445 at Jefferson Barracks, Mo.; and 113 at Camp Evans, Wis. Other figures give an enrollment of 1,965 at Fort Snelling, Mich.; 1,429 at Fort Des Moines, Ia.; and 1,843 at Fort Leavenworth, Kas. Camp Meade, Md., with 2,089 students, has the largest enrollment.

King Boris Back in Sofia, and No Sign of a Bride

[Chicago Tribune Press Service.]
SOFIA, Aug. 17.—King Boris returned to Sofia today as much of a bachelor as when he left on a motoring tour two weeks ago.

PEORIA POLICE CHIEF OUSTED IN STOLEN CAR ROW

Peoria, Ill., Aug. 17.—(Special.)—Chief of Police J. Shirley West and Detective Richard Claudin were suspended by Mayor Louis Mueller today pending investigation of the stolen car ring through which, it is charged, 200 automobiles were stolen off the streets of Chicago and "sold" to Peorians. Both denied they had any knowledge that the cars were stolen when they purchased them.

Mayor Mueller has appointed Detective William Knott temporary police chief.

Mayor Mueller's action came at the close of a meeting to air the charges which have grown out of the stolen car ring, whose alleged head is Floyd M. Overby of Chicago.

Settle Detective's Car.
Overby had promised he would be present at today's hearing, together with Detective Sergeant Frank McDonald of Chicago and Sgt. James McGuire of the state highway police, both of whom were active in the investigation, but none was present.

MAYOR GIVES HIS AUTO TO CARRY ORPHANS TODAY

Probably for the rest of their lives a bony of Chicago orphans will date events before or after "the time I rode in Mayor Dever's car," for these fortunate ones today will step from the motor of the city's chief executive to join their less favored but joyful companions at the annual picnic of the Orphans' Automobile Outing association at Lincoln park.

The mayor was one of 700 citizens offering their cars to carry the nearly 5,000 orphans and old folks from thirty-six of the city's charitable institutions through the boulevard system and to the picnic grounds at the park, where music, vaudeville and a picnic dinner will entertain the guests.

Mrs. Dever plans to be among those watching the fun, which is to include a "personal appearance" of Little Orphan Annie, assisted by Tamara cartoonist Harold Gray; acrobatics by four talented child actors, Bonnie Hunt, Countess Susanna, Gladys Zimmerman and Betty Oida, and many other amusing stunts.

WOMAN FOUND DEAD IN HOME.
Mrs. Elsie Asahon, 36 years old, 1140 Beacon street, was found dead in her room yesterday by Miss Hilda Wink, 3524 Wabash avenue, who came to attend her in illness.

CHARGES POLICE ROBBED HIM OF 'KITCHENER BODY'

[Chicago Tribune Press Service.]

LONDON, Aug. 17.—More sensational news was added to the Lord Kitchener mystery today. Frank Power, the London journalist who spun the yarn of his discovery in Norway of the remains of the war hero who lost his life on June 5, 1916, when the cruiser Hampshire, on which he was sailing, returned to London this afternoon and suggested in an interview that Scotland Yard had double crossed him.

Mr. Power intimated that the detectives substituted an empty coffin for the one he says he brought back from Norway, containing Lord Kitchener's remains.

The affair now has become an altercation on coffins, Mr. Power asserting the coffin he procured in Norway is not the same as the one described as having been opened by the police.

Mr. Power went to Scotland Yard this afternoon for a long interview.

Meanwhile, the home office has asked the police to keep in close touch with Mr. Power and legal experts are considering possible future action.

Mandel Brothers

Scanties—eight ounces of comfort

Acid Stomach

PHILLIPS' Milk

of Magnesia

Instead of each hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour acid, gassy stomach, and relief will come instantly.

Better Than Soda
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Resides, it neutralizes acid fermentations in the bowels and gently urges this waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle
Insist upon "Phillips' Milk of Magnesia" and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1873.

Three Ways to Enjoy KELVINATOR Electric Refrigeration

The convenience of a Kelvinator is beyond estimate. No need for you ever to be without ice when you want it most... it's always there when you want it with a Kelvinator. Choose any one of these three ways:

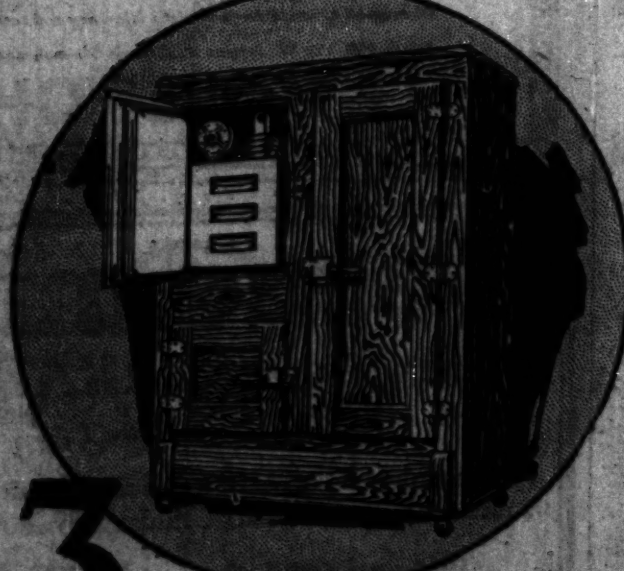

1. Have a Kelvinator installed in your present refrigerator and in just a few hours it will be electrically chilled.
2. Select any one of our beautiful Cabinet Kelvinators, wherein you get a Kelvinator built right into a refrigerator. The entire unit is delivered complete, only an electric connection being required.
3. Choose from our entire stock of Electric Refrigerators and we will deliver the one you want Kelvinator-equipped.

1. Have a Kelvinator installed in the refrigerator you are now using.

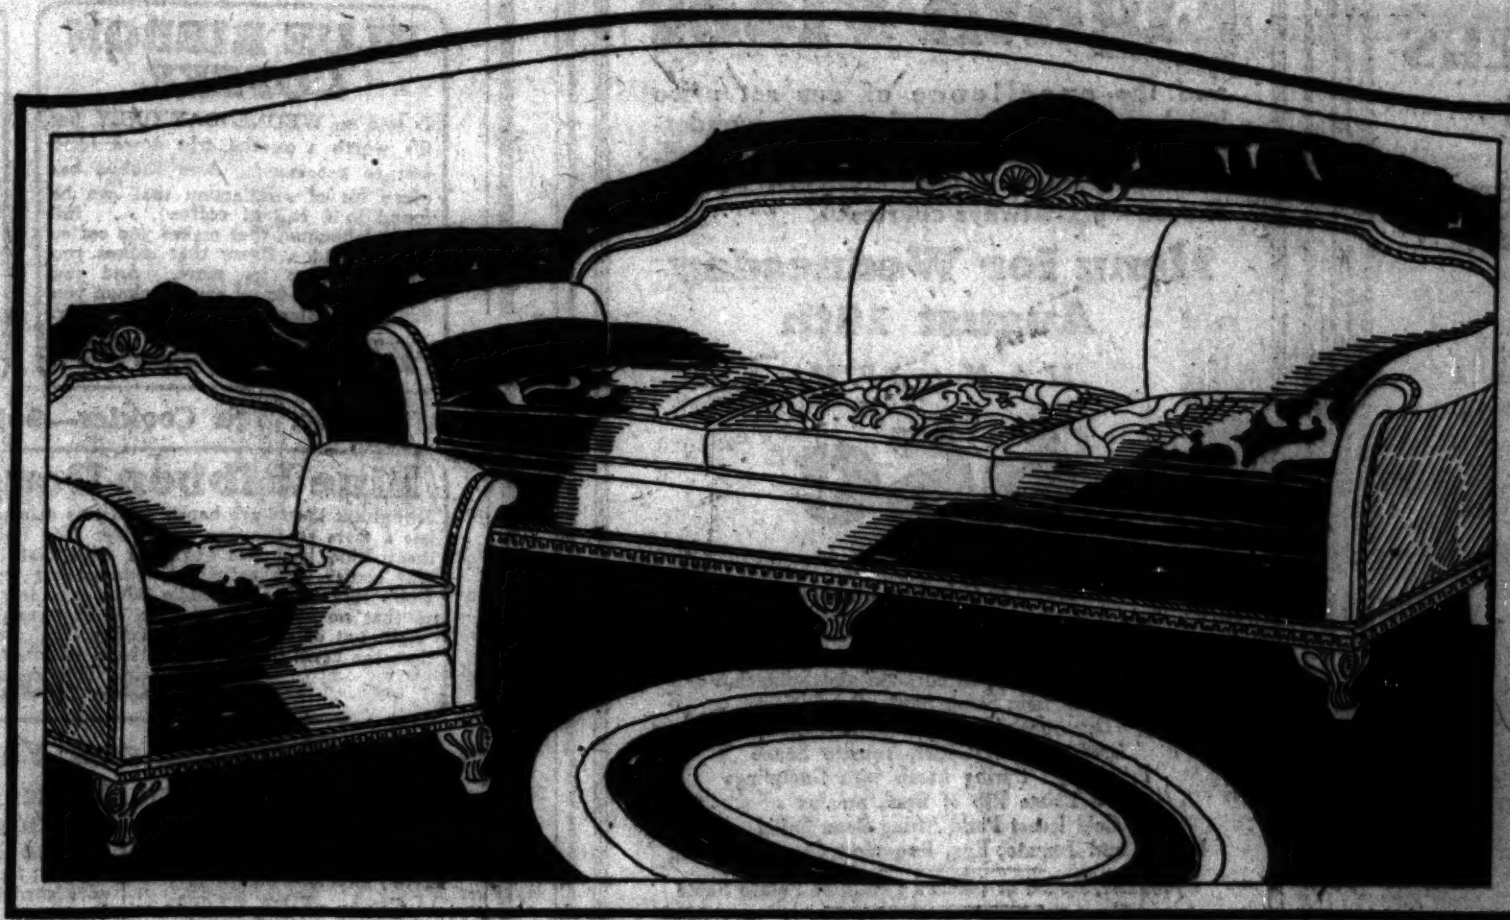

2. Select any one of eight Cabinet Kelvinators, with Kelvinator and refrigerator all in one.

3. Choose any refrigerator from our stock—the world's most complete—and we will deliver it Kelvinator-equipped.

When Kelvinator offers this almost unlimited line; and since Kelvinator prices and terms are so attractive, why be satisfied with anything but a Kelvinator?

2-Piece Solid Mahogany Living Room Suite

With Linen Frieze Reversible Cushions and Mohair Covering

A thing of beauty... a suite like this... adding charm and distinction to your home, offering you everything you would look for in a higher priced suite, but at a decidedly moderate price. The tone of the solid mahogany in the exposed carved wood frame is unusually rich, and mohair covering, known for its durability, is used on the front. Matching in shade and color is a covering of plain cotton velour on outside back and ends.

\$159
\$15 Down

What better proof than to sink into the cushions of this attractive suite... note its softness and feel of luxury! Web bottom, hand tied springs, black moss and cotton felt filling, and hard wood frame securely glued are your assurance of lasting quality. The Fair—Black Floor.

QUEZON DENIES FILIPINOS NEED U. S. FOR DEFENSE

Says Islands Could Rely
on Diplomacy.

BY WALTER WILGUS.
(Chicago Tribune From Service.)
MANILA, Aug. 17.—Manuel Quezon, president of the senate, while denying that the Washington estimate that it costs the United States \$15,000,000 annually to police the Philippines, admitted to THE TRIBUNE that in defense of the Philippines would have to depend more on diplomacy than on force to repel outside aggression.

to the United States of occupation of the Philippines. If the Washington report is correct, the \$15,000,000 undoubtedly includes the cost of subsidizing the Philippine revolution and \$12,000,000 for the United States naval and military establishment on these islands.

"Islands Bear Cost."
"The policing of the Philippines does not cost the United States one cent," he said. "The cost of the Philippine revolution is being borne by the Philippine government. If the Philippines were independent tomorrow the cost of policing could be the same as it is today. No addition to the revenues would be required."

"As far as defense against outside aggression is concerned, the Philippines, like other small nations, would have to depend more upon diplomacy than upon force."

Manuel Roxas, speaker of the house, also answered THE TRIBUNE query.

"Denies \$12,000,000 Cost to U. S."
"It is not true," he asserted, "that the United States spends \$12,000,000 annually for policing and defending the islands."

"The Philippines never have asked for American troops to preserve the peace and order. We don't need them. During the war not a single American soldier was in the islands. There was peace and order here then."

Military authorities deny Senator Quezon's statement. There were no American infantrymen here at certain periods of the war, but some of the American coast defense and mem-

bers of the personnel and technical branches were retained.

THE INSIDE STORY

BY PARKER BROWN.

ABOARD S. S. MINDORO, P. I. Aug. 17.—More straws believed to indicate how the wind might blow if the Philippines are given complete autonomy were seen on the island of Negros, which Col. Carmel Thompson, President Coolidge's investigator in the Philippines, has toured in the last two days.

He learned that, despite the present restraints on Americans, a certain sugar interest is permitted to borrow huge sums from the national bank, which is operated by the government, and is barely able to pay, while privately financed centrals, as the mills are called, are remarkably successful.

Public health was another matter which attracted attention, as eleven lepers were incarcerated in the unsanitary quarters of the provincial jail without medical attention for periods ranging from three to eleven months, thus decreasing their chances for being cured.

Conditions in the jail were discovered by Maj. A. Parker Hitchens, Gov. Gen. Wood's adviser on public health matters.

Ben F. Wright, insular auditor and a member of the Thompson party, outlined the figures on loans to the sugar industry, which were verified by the local representative of the national bank.

To date the sugar growers of Negros have received \$5,000,000 loans (\$1,500,000) and the five sugar centrals of Negros have received 45,000,000 pesos (\$21,500,000), or a total of 78,000,000 pesos (\$38,000,000). None of the Lopez growers is able to repay a peso.

One central obtained additional loans slightly in excess of 3,000,000 pesos (\$1,500,000) and drew out nearly double that amount, no one knows how.

271st Blue Ribbon Wednesday

Suppose every time you went into a haberdasher's shop you saw the same ties hanging on the same racks, wouldn't your interest in that shop be lost? Suppose every time you went to the theatre you saw the same play... wouldn't your desire for play-going be killed? Is it any wonder then, that when you go into many grocery stores and see the same things, day after day, you lose interest in food?

This store carries at least 50 items to every one in the average grocery store. It brings you the best from every country in the world and makes it possible for you to set a tempting table for no more than you would pay for inferior foods. If you think we charge more than other stores for our foods, tell us just which items and what they sell for elsewhere. We know that we are right whenever we say that

OUR PRICES ARE NEVER HIGH

BLUE RIBBON COFFEE

Is sold on WEDNESDAY ONLY, but it's worth a special trip down town just to get some. Blue Ribbon has every bit of satisfaction that can be found in a cup of coffee... full body, a bouquet that makes you coffee hungry, and a flavor that makes you pass your cup for more. And you taste delight. PARISIANS ARE SOLD, buy. Buy Blue Ribbon Coffee Today.

2½ Lbs., \$1.00

PARISIAN CHOCOLATES

Placed side by side with chocolate that cost from 80c to \$1.00 a pound, 9 out of 10 persons, selecting by taste, would give the choice to Parisians. The very same of the candy maker's skill, made of the purest sugar, chocolate and flavoring it is possible to buy. Centers of nougats, caramels, and whipped creams of assorted flavors, make every piece a new taste delight. PARISIANS ARE SOLD, AT THIS PRICE, Wednesday only.

3 Lbs., \$1.00

BLUE RIBBON BACON

Prepared according to an old Irish recipe and so good that it brings thousands of real bacon lovers to this store every Wednesday. You get flavor and taste and a wholesome completeness that satisfies every craving for good bacon. And the price is less than you pay for inferior qualities. Blue Ribbon Bacon is sold only on Wednesday. Whole or half slab.

Pound, 44½c

Afternoon Tea Cookies—9 dozen; 12 different kinds 3 Lb. Box, 89c

Blue Ribbon Doughnuts

Doughnut lovers are happy with this delectable patisserie that has a taste so delectable and spicy. You finish the last bite of these Blue Ribbon Doughnuts with that intense satisfaction that comes with eating something that "just hits the spot." Don't forget that we make 300 dozen fresh every half hour, so that no matter what time of day you get them they are "right out of our kitchen." Today they are 10c a dozen less than the usual price—THE BLUE RIBBON PRICE.

Dozen, 30c

Angel Divinity Cake

Why go to the bother of baking a cake when you can get this wonderful Blue Ribbon Special for less than it would cost you to make it at home. The lightest, fluffiest, mouth-melting Angel Food with a choice of 3 icings; one richly fruited with bits of fresh Alberta peaches, another with Hawaiian pineapple, and a third with chocolate. Sold Wednesday only at this price.

Each, 45c

Fresh Fruits and Vegetables

AT ALL DRUGGISTS

Wanted An Exceptional Publicity Man

One of America's foremost advertising agencies wishes to strengthen its staff by the addition of an exceptionally competent publicity man.

Because the position is one which will place him in complete charge of all publicity activities on one of the largest advertising accounts in the world, he must be a man of outstanding ability and originality.

To this position he must bring not only a well developed news sense and the ability to conceive and execute constructive publicity ideas, but also the ability to win the co-operation of the newspaper and magazine editors with whom he will contact.

Since the position contemplates close association with the automotive industry, experience as a writer of automobile publicity, or as automobile editor of a metropolitan daily, would be advantageous. Yet, applications from men who have records of success in any phase of publicity—theatrical, industrial, personal, etc.—will receive serious consideration.

This advertisement is not directed to beginners, nor even to men of only ordinary capabilities.

The blunt truth is that we seek a man who has won his spurs—whose basic experience is behind him and whose future is still before him—and who has reached that stage in life where he would be interested in a permanent connection with an organization that has a reputation for treating its staff with understanding and consideration.

If you are interested, please write us in complete detail about yourself. Your letter will be held in strictest confidence by three of our executives, and personal interviews will be promptly arranged.

The Boiler that Makes Oil Heat a Real Economy

You need hesitate no longer to enjoy the comforts and conveniences of oil heat. For the Bryan Oil-Burning Boiler now adds *economy* to these other great advantages.

With this new Bryan product—made expressly for oil burners—you can now have oil heat in your home at a cost *actually less than that of coal*.

The Bryan Oil-Burning Boiler is the first practical boiler designed to meet the specialized demands of oil heat. For the first time there is the perfect coordination of burner and boiler which is essential to get the utmost efficiency and economy in oil heating.

The handicap on oil burners is that they have been forced to operate in boilers designed not for oil heating systems. See it in operation at the

The Bryan Oil-Burning Boiler
Specially designed and built for the special requirements of Oil and Gas Burners. For Steam, Hot Water, Vapor, and Vacuum Heating Systems. Attractive moss green finish, with nickel pure copper corner strips.

If then, fuel consumption has seemed high, it has probably been due not to the burner, but to the design of the boiler with which the oil burner has been used.

The Bryan Oil-Burning Boiler, because it is built specifically for oil burners, actually saves 30% to 50% in oil consumption.

Oil Heat with the Bryan Oil-Burning Boiler is therefore a real economy.

The Bryan Oil-Burning Boiler, with its remarkable efficiency, costs no more than the ordinary coal boiler. It actually pays for itself in fuel saved. It operates efficiently and economically with any good oil burner, in steam, hot water, vapor, or vacuum

heating systems. See it in operation at the address given below.

Hot water for household use costs 50 per cent less with the Bryan Oil-Burning Boiler. A special hot water coil does away with the costly separate water heater and provides abundant hot water all the year round.

The Bryan Oil-Burning Boiler may be purchased out of income—25% down, balance in 12 months.

The Generator
The Generator of the Bryan Oil-Burning Boiler is a nest of durable copper tubes ingeniously arranged in the direct path of natural heat travel—on the principle of the familiar hot water heater. By using copper tubes, closely intertwined, instead of heavy cast iron walls as in the ordinary coal boiler, the effective heating surface is greatly enlarged, the circulation of water is tremendously accelerated and the water is heated or converted into steam in one-fifth the time required in an ordinary boiler.

The Combustion Chamber
The Combustion Chamber provides the scientifically ideal boiler conditions for the economical and efficient operation of an oil burner.

Oil Burner Manufacturers who have not already done so, are invited to test their oil burners with the Bryan Oil-Burning Boiler at the Bryan Steam Corporation plants at Peru, Indiana. Such tests will give them accurate data on the savings effected with their particular burners.

BIG HOWITZERS ROUT BOLSHIEV ARMY IN CHINA

But Manchus Leave Field
Strewn with Dead.

BY CHARLES E. DAILEY.
(Chicago Tribune Press Service.)

NANKOW PASS, China, Aug. 17.—An inspection of the Kuomintang [national army] positions, abandoned Saturday after withstanding a siege of 113 days, reveals a hollow victory for the Manchurian army of Marshal Chang Tso-lin, which was organized by Feng Yu-hsiang, the Chinese general. The Kuomintang withdrew back in perfect order, over a period of several weeks, leaving a brigade at the mountain pass, while guns on the mountain swept the Manchurian and Shantung troops approaching in phalanxes for ten days.

A five mile area before Nankow pass is littered with Manchurian dead. Throughout the siege the Kuomintang losses were comparatively slight, because of their sheltered positions.

Prepare for Defense.
The Kuomintang lines are now east of Kalgan, indicating that their purpose is to remain in Suiyuan and Mongolia while preventing pursuit by aerial and cavalry raids upon any expeditions organized to follow through the pass to the plateau.

The Kuomintang possibly will remove the seat of the northwest government to Pingkangchen, although they are prepared to defend Kalgan. The final success of the Manchurian assault was due to the utilization of a regiment with eight inch howitzers.

Modern War Methods.
PEKING, Aug. 17.—(AP)—Modern methods of warfare were used by both sides in the fighting at Nankow pass. Foreign military observers described the defensive works at the entrance of Nankow pass as demonstrating the highest technical skill. Trenches were protected by electrically charged wires, and had entanglements to withstand the fiercest assault.

The allies used high explosives, probably for the first time in Chinese warfare. These proved the undoing of the Kuomintang. The hillside was torn and pitted with shell holes, reminiscent of the French fields in the world war.

Russians Among Dead.
Among the Kuomintang dead were a number of Russians. No estimate has been made of the casualties, but the close fighting about the fortified pass is believed to have resulted in heavy losses to both sides.

The Kuomintang are said to have received bolshevik support from Russia. The same influence is said to be animating the march of the Cantonese government troops in southern China against the central provinces controlled by Wu Pei-fu. This action is said to be for the purpose of halting the movement against the Kuomintang of the north. Marshall Wu is preparing to go to the south to take charge of the campaign against the Cantonese.

U. S. JUDGE CURBS BORDER INFLUX BY VISA ORDER

All But Canadians
Must Get Permit.

(Chicago Tribune Press Service.)

MONTREAL, Que., Aug. 17.—Interacts with headquarters in New York, which have made a business of facilitating the temporary entrance of continental aliens to the United States, have been quashed in their initial attempt to obtain a court decision upholding their stand that consular visas are not required by such visitors.

Judge Charles M. Hough of the United States Circuit Court of Appeals, who was appealed to in the matter while spending his vacation in Vermont, has handed down a decision regarding by immigration and consular officers as upholding their contentions that visas are required for visitors other than native Canadians, naturalized Canadian citizens, or British subjects permanently domiciled in Canada.

Against this policy certain agencies contended that a visitor did not need a visa of any kind, that the law requiring visas was a war time measure and expired with other war time laws when peace was declared.

Two test cases were made, one being the one on which Judge Hough based his decision. On July 17 four European aliens who had lived in Canada for a short time were refused admission at St. Albans, Vt. A writ of habeas corpus was obtained from Judge Hough, who heard arguments on July 27 and has just handed down his decision. The decision says that "the President's order of 1925, requiring nonimmigrant visas to present, as a condition of entry, passports duly vised by United States consular officers, was a lawful exercise of authority" and that "the action of the consuls at Montreal in such cases as these was strictly warranted by law."

On July 17 four European aliens who had lived in Canada for a short time were refused admission at St. Albans, Vt. A writ of habeas corpus was obtained from Judge Hough, who heard arguments on July 27 and has just handed down his decision. The decision says that "the President's order of 1925, requiring nonimmigrant visas to present, as a condition of entry, passports duly vised by United States consular officers, was a lawful exercise of authority" and that "the action of the consuls at Montreal in such cases as these was strictly warranted by law."

CITY TO ENFORCE \$5,000 BOND LAW ON TAXI DRIVERS

Orders were issued to the police by Chief Collins yesterday to enforce strictly the ordinance requiring a \$5,000 surety bond from taxi drivers and all other persons using their cars to carry passengers for pay.

The action of the chief followed receipt of an opinion from Corporation Counsel Busch that the ordinance is valid, having been twice sustained by the Illinois Supreme court. The order applies to all individuals and firms except the Checker Cab company, in whose favor an injunction is extant, pending an appeal to the United States Supreme court.

The bond, according to Chief Collins, is the only protection which cab passengers have. The recent failure of the Premier, Pennant and Redd companies have left large sums in damage claims unpaid, he said.

RECOUNT IS HALF DONE; MILLER AND KLEIN NOW AHEAD

With almost half of the 2,627 precincts in Cook county recounted by the election commissioners, only two changes in the original result are indicated. It was shown yesterday.

County Commissioner George A. Miller was found to have been renominated instead of defeated in the country towns district, and Assistant State's Attorney Robert E. McMillan, in the recount thus far in 1,548 precincts, has been dropped from the last winning place for Municipal judge by Leo L. Klein. Both McMillan and Klein ran under the Crowe-Barrett banner.

County Judge Edmund K. Jarecki, faced with the task of punishing his own appointees for fraudulent counting of the ballots, yesterday cited sixty-five judges and clerks of election to appear today on contempt charges.

G. O. P. CONGRESS CAMPAIGN OPENS AFTER LABOR DAY

The campaign to elect Republican congressmen to office will begin immediately after Labor day, it was announced yesterday by Senator Charles S. Deneen, secretary of the Republican senatorial campaign committee. Headquarters were rented yesterday on the

15th floor of the Hotel La Salle, but the battle will not begin in earnest until after the last of the state primaries is held.

"When that time comes we shall be ready," said Senator Deneen after an all day conference with other members of the senatorial and congressional campaign committees. "Speakers and programs will have been arranged, and campaign literature reviewing the accomplishments of the Republican administration will have been assembled and printed."

HERRICK NEW HO FRENCH

Confidence
Government

New York, Aug. 17.—Herrick, ambassador to France, the Countess Marquis, who spent on his farm, ambassador, was thinking of it is popular with the living in their capital. Speaking of the ambassador, he advances steadily.

More Optimistic
"The present is strong one," he represents all political Premier Poincare, called from Cherbourg, Atlantic. All parties, including the bank, terrace, believe in standing on the and that it would in that position. "There is no reason should have fallen. The field is covered with crops a foot of ground uncultivated. To find work for all have had to improve. Industrially and is one of the richest countries in the

Political Outlook
When asked about look in Europe, he replied: "The situation, opinion, and likelihood cause the nations realized during that they must state own welfare and international view. "Does that mean of nations?" he was asked. "The ambassador when the question second time he said some rational man. With regard to anti-Americanism, Ambassador Herrick, much exaggerated away."

PLUNKETT HELD FOR ON CASH

(Chicago Tribune Press Service.)
Plunkett, daughter of two men, went to Dublin today, on a mission in raids, ers, chiefly Jews. Jews were raided, money, cases, documents, money, landing, taken away. ADVERTISE IN THE TRIBUNE

HERRICK SEES NEW HOPE FOR FRENCH NATION

Confidence in Present
Government Strong.

New York, Aug. 12.—(Special.)—Elyon T. Herrick, United States ambassador to France, arrived today on the Cunarder Mauretania for his annual holiday, which he said he would spend on his farm near Cleveland. The ambassador scouted the idea that he was thinking of resigning his post. He is popular with the French and likes living in their capital.

Speaking of conditions in France, the ambassador said the franc would advance steadily and not fall again. "More Optimism Prevails."

"The present government is a very strong one," he continued, "and represents all political parties. I saw Premier Poincaré on Sunday before I sailed from Cherbourg and he was optimistic. All parties in France, including the banks and financial interests, believe that they have been standing on the brink looking down and that it would be dangerous to get in that position again."

"There is no reason why the franc should have fallen so low, that I could see. The fields throughout France are covered with crops and there is hardly a foot of ground in the country left uncultivated. The French not only find work for all their own people, but have had to import 2,000,000 laborers. Industrially and economically France is one of the richest and the most prosperous countries in the world today."

Political Outlook Serious.
When asked about the political outlook in Europe Ambassador Herrick replied:

"The situation is peaceful, in my opinion, and likely to remain so because the nations over there have realized during the last few years that they must stand together for their own welfare and judge things from an international viewpoint."

"Does that mean through the league of nations?" he was asked.

The ambassador did not reply, and when the question was put to him a second time he said lamely, "through some rational means."

With regard to the much talked of and American feeling in Paris, Ambassador Herrick said it had been very much exaggerated and had now died away.

PLUNKETT GIRL
HELD FOR RAIDS
ON CASH LENDERS

(Chicago Tribune From Service.)
DUBLIN, Aug. 12.—Miss Fiona Plunkett, daughter of Count Plunkett, and two men were returned for trial in Dublin today, charged with participation in raids against money lenders, chiefly Jews. The offices of the Jews were raided with revolvers. In early cases, documents relating to money lending transactions were taken away. Papers found on the prisoners related to a decision by the republican army, an illegal body, to suppress money and detailed instructions were given as to how the money lenders making weekly calls on clients should be held up and warned that the traffic must cease.

POINCARÉ WHETS KNIFE TO CUT STATE PAY ROLLS

(Chicago Tribune From Service.)
PARIS, Aug. 12.—Premier Raymond Poincaré returned to Paris today after spending his vacation at St. Germain, resuming his examination of the financial situation for stabilizing the franc.

Although admitting that he relies on foreign credits, M. Poincaré intends to enforce the greatest economies at home and expects to make wholesale reductions in civil servants. It is estimated that there are 1,500,000 public servants on the nation's payroll, including, of course, soldiers and sailors. Statistics show there are 87 public servants per thousand of population.

Leslie Thorne's Marriage Is Postponed Indefinitely

(Picture on back page.)
Mr. and Mrs. Charles Hallett Thorne announced yesterday that the wedding of their daughter, Leslie, to James G. Doud, of Monterey, Cal., had been indefinitely postponed. Miss Thorne is now entertaining guests at The Moulton, Los Cheneaux club, at Mackinac Island, Mich., and intends to resume her art studies in the autumn. The marriage was to have taken place on Sept. 28.

PLANE FALLS IN LAKE; 2 NAVAL OFFICERS KILLED

Instructor and Pupil Are Practice Flight Victims.

(Picture on back page)
A naval flying instructor and his pupil were instantly killed yesterday when the heavy seaplane in which they were flying about 100 feet above Lake Michigan twisted into a tail spin and plunged into the water.

Ensign George D. Hammer, 23 years old, executive officer of the flying corps at the Great Lakes Military station and Ensign Robert Stone, 24 years old, of Howard, S. D., whom he was teaching to fly, were the victims.

Killed in Second Lesson.
Stone came to the station only last Saturday. Hammer had taken him Monday afternoon for a flight over the lake near the aviation field of the station. Yesterday they again ascended to see if the student aviator had remembered all he was taught. They were in a plane, the levers for both instructor and student.

Watched by a score of seamen from the beach, the plane went through various dips and turns. Suddenly those watching saw the craft, averted sideways, spin dizzily, and fall into the lake. The water is about eight feet deep at that point, and only the tip of a wing of the plane was visible.

Seamen Make Heroic Efforts.
Two seamen, R. L. Burns, 23 years old, former Lake Forest football star, and V. W. Randecker, 20 years old, dived into the lake and swam the 400 yards to the submerged plane. Their attempts to rescue the bodies of the two naval officers were characterized as heroic by Commander H. W. Schofield, of the station aviation corps. It was more than two hours before Hammer's body could be taken from the pit where it had jammed.

An inquiry was started by Commander Schofield. It was decided that the accident had occurred through no fault of the machine, but that a spin had been attempted at too low an altitude.

COOLIDGE DIDN'T PROHIBIT LIQUOR POISON, HE SAYS
Paul Smiths, N. Y., Aug. 17.—(Special.)—President Coolidge today authorized denial that he had issued instructions to Gen. Andrews, chief prohibition enforcer, to cause the abandonment of the use of wood alcohol and other deadly poisons to denature grain alcohol.

According to this denial, the President knew nothing of the matter until he read in the newspapers the statement that he had acted to end fatalities caused by drinking liquor rendered nonpalatable by the deadly denaturants of the United States formulas.

The President takes the position that he lacks authority to take any action in the premises. The law prescribes effective denaturing of grain alcohol for nonbeverage uses, and it is for the treasury department, according to the President's viewpoint, to enforce the law.

NORTHWEST AIR MAIL RESUMED; U. S. ASKS BIDS

Air mail service between Chicago and St. Paul, Minn., was resumed yesterday, following a one-day break on Monday, though Charles J. Dickinson, holder of the government contract, said he had tendered the legal 45 days' notice canceling his contract.

Postmaster General New, in Washington, announced acceptance of the cancellation and posted bids on the

service to be returned on Sept. 4. He expressed an opinion that the air service has been developed too rapidly and before communities were ready for it, but added that he is bound by law to see that the terms of the contract are fulfilled.

Mr. Dickinson admitted that the service had not proved to be a paying one, but insisted that fact had nothing to do with his determination to cancel the contract. He intimated that he may have to put the service to five days a week instead of seven. A combined passenger and mail service over the route is being planned.

Dutch-U. S. Savants Fire on New Guineans; 2 Dead

(Chicago Tribune From Service.)
THE HAGUE, Aug. 17.—The Dutch-American scientific expedition in New Guinea has been attacked by native tribes of Papuans. A military detachment, which is accompanying the party, encircled by 100 Papuans armed with arrows, were obliged to fire after repeated warnings. The Papuans shot off their arrows. Two natives were killed and the balance fled.

LIKE an extra pair of hands without a cent of extra cost!

Now at last you have the help you need with your clothes washing, your dishwashing, your household cleaning. Instant suds from Chipso's thin white flakes soak loose even greasy dirt with speed and safety.

No more chipping and melting of cake soap for your washing! No more rubbing soap on dishcloth or scrubbing brush! No more hard rubbing anywhere—on a washboard, or woodwork or floors.

Using Chipso is like having

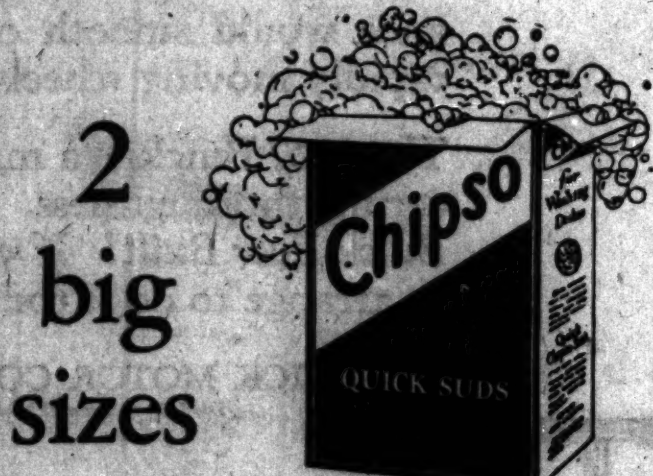

an extra pair of hands to help you!

And Chipso costs no more than old-fashioned soap.

The cheerful blue-and-orange boxes hold a lot of soap for the money! You get suds enough from the big size to do 6 ordinary washings, or to wash your dishes for a month.

Quick, safe, economical. Chipso is the perfect household soap. To try it, buy the 10¢ size. Then regularly buy the big size.

PROCTER & GAMBLE

INSTANT SUDS for wash tub washing machine dishpan

Chipso is always ready to use. Sift out dry Chipso flakes right from the box. Run in hot water. Instantly you get rich, foamy suds which do your work in less time—with less effort. Chipso suds soak out dirt and grease.

SUDS in a second—for SOAKING clothes clean

Heated with GAS

The cost of heating this attractive Chicago apartment building, two 5-room flats, from September 1925 to June 1926, was \$371.66

You pay NO MORE for Kelvinator

but you GET MORE!

You get greater food storage capacity—more ice cube capacity—and more downright quality in a Cabinet Kelvinator than in any other electrically equipped refrigerator at or near its price. But that's not all.

You get a wider choice of models; the Kelvinator line being the

world's largest. You get such beauty of design and finish that women choose them for appearance—and that's not all.

You get a Kelvinator; the same system that has been serving others since 1914, and is acknowledged to be the system of longest proved life.

A Special Automobile Show

during St. Louis' Big Exposition

September 4 to 19

ST. LOUIS expects to entertain a million visitors from September 4 to 19. The occasion will be The Greater St. Louis Exposition, celebrating 150 years of American Independence and Industrial Progress.

"Exposition City" is being built in Forest Park, especially for this event.

With a Special Fall Auto Show

Because of the conspicuous interest which this Exposition will attract, The St. Louis Automobile Dealers' Association will hold a special Fall Auto Show on the Exposition Grounds.

This show will rival, in scope and importance, the regular Annual Auto Show staged each winter by the Association.

Dealers and manufacturers of cars and automotive equipment are arranging elaborate displays to greet the throngs of visitors from throughout St. Louis and The 49th State, and even from points beyond.

And A Special Show Section of The Globe-Democrat

Sunday September 5

And the Help of the Newspaper of The 49th State

Enhancing the interest in this Auto Show, The Globe-Democrat will publish on

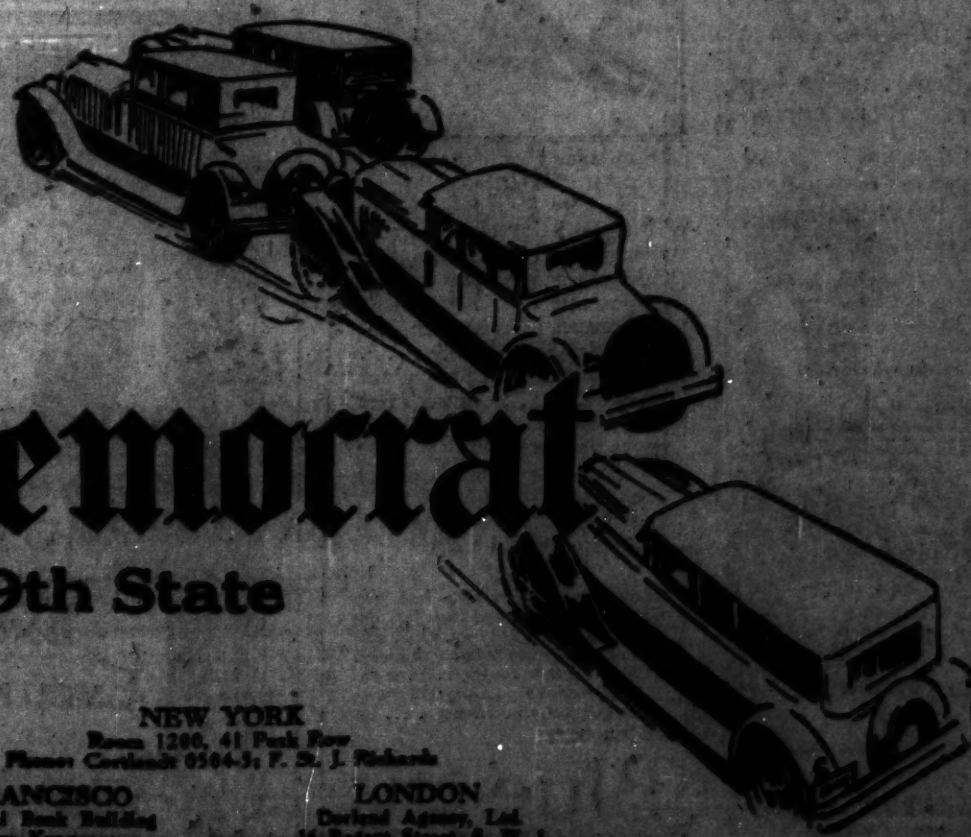

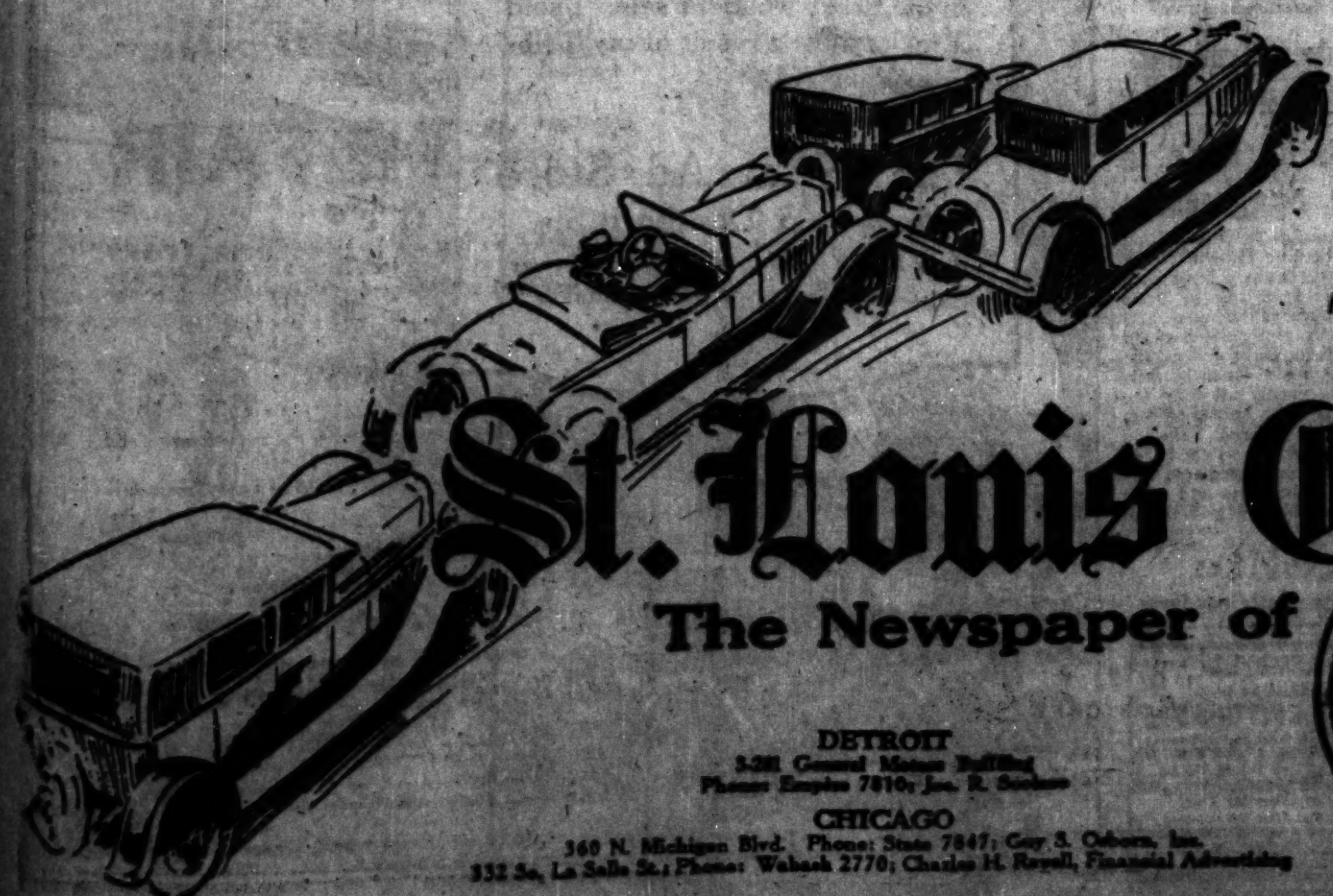

Sunday, September 5, a Special Auto Show Section, with news and articles relative to the event and the exhibits.

With its dominant position as the Motorists' Guide, and its exclusive influence throughout The 49th State, The Globe-Democrat offers to automotive advertisers easy and economical access to the trade.

At the Time When Prospects Are Eager

Here's a wonderful market at its best—during the autumn touring season, when the highways of The 49th State offer special incentive to automobile buyers.

.... And a selling opportunity "made-to-measure," with the stimulus of The Show and the influence of The Globe-Democrat to help develop an unusual sales volume.

ORDERS SURVEYS OF FIVE AIRWAYS FOR NIGHT FLYING

[Chicago Tribune Press Service.]
Washington, D. C., Aug. 17.—(Special.)—First steps leading toward the actual construction by the government of lighting facilities for commercial airways was taken today by William P. MacCracken, the Chicagoan recently appointed aviation secretary of the department of commerce.

Mr. MacCracken announced that he has directed five army flyers to survey five designated air routes and locate the sites where it is planned to establish 24 inch revolving lights. The army officers also will fly over the routes and investigate the boundary lighting of emergency fields. It is now planned to have these emergency fields approximately 30 miles apart.

Open Bids for 116,500 Lights.

Bids for the construction of 116,500 lights already have been opened by Mr. MacCracken, and he expects to light approximately 1,000 miles more of the airway routes this coming year. Of the 9,745 miles of airways now in operation or proposed for the new routes, 2,941 miles already are lighted. At the present time 7,996 miles of air-

BEACH IN PLANE TOUR HAS POINTS ENOUGH TO ASSURE 1ST PRIZE

Indianapolis, Ind., Aug. 17.—(Special.)—Continuing his sensational airplane piloting, Walter Beach today added enough points to his record in a flight from Moline, Ill., to Indianapolis to practically assure him of first prize of \$7,000 in the Ebel Ford reliability airplane tour.

Beach headed twenty-one aviators making the run from Moline to the Indianapolis Motor speedway, a distance of 253 miles. He negotiated the distance in 2:04:20, an average of 118.5 miles an hour, riding in on the head of a driving rainstorm. He brought his total points to 2,832.55.

L. G. Meister is next in rating, with 2,747.4 points and R. W. Schroeder is third with 2,494.2. The machines will depart tomorrow morning for Cincinnati.

Two routes touching at Chicago are included in the five routes to be surveyed at once.

Lieut. William MacKenzie has been assigned to the St. Louis-Chicago route.

ways are in operation and it is proposed to increase this mileage by 7,799 additional miles during the coming year.

Two routes touching at Chicago are included in the five routes to be surveyed at once.

Lieut. William MacKenzie has been assigned to the St. Louis-Chicago route.

U. OF C. FACULTY LARGER BY FORTY THAN LAST FALL

New appointments to the University of Chicago faculty were announced yesterday, making the total staff \$13, an increase of forty since last fall.

Among the new appointees are Kenneth C. Craddock, Sears, as professor of law; Marjorie Camp as instructor in physical culture; Lella Houghteling as an instructor in the graduate school of social service administration.

Chester Scott Keefe was made instructor in the department of medicine and will be resident physician at Billings hospital.

War at Winter Darkness.

Secretary MacCracken said that with the money now available it will be possible to light only those portions of the routes which will be flown in darkness during the winter. He pointed out that the schedule on which the air mail contractors are now operating makes it necessary for the pilots to leave terminals in the early morning hours or to arrive at terminals at the close of day. For this reason he is anxious to have as much of the lighting work done as soon as possible.

used by the Robertson Aircraft corporation.

Lieut. Arthur Halsted has been assigned to the Chicago-Dallas route, used by the National Air Transport, headed by Col. Paul Henderson.

How many people actually have halitosis (unpleasant breath)?

Read what dentists
have to say about this:

EVERY reader of Listerine advertising knows about halitosis (unpleasant breath), that insidious thing that not even your best friends discuss with you.

Yet there are still a few "doubting Thomas" folks who think halitosis is only a state of mind.

Out of simple curiosity we put this question up to a carefully selected list of dentists—1000 of them—and in a letter asked them the following:

Do you ever use Listerine, in self-defense, in the mouth of a patient troubled with halitosis, unpleasant breath?

Please answer if you use it this way (1) Frequently, (2) Occasionally, or (3) Never.

Four hundred and forty replied as follows:

83% said "Frequently"
15% said "Occasionally"
Only 2% said "Never."

Now, what human being meets halitosis at closer range, face to face, than the dentist? And who would be a better judge of this condition—and how to combat it—than the dentist?—Lambert Pharmacal Company, St. Louis, U. S. A.

How to Bathe Face to Remove Sagginess

Since its remarkable astringent and tonic properties became known, clever women all over the country have been using the Saxolite face bath to "tone up" their faces, remove wrinkles and draw flabby cheeks and neck back to normal. After using the solution, the face immediately feels much firmer. The skin tightens evenly all over the face, thus reducing lines and sagging. The formula is: Powdered Saxolite, one ounce, dissolved in witch hazel, one-half pint. These ingredients are of course perfectly harmless and there is no difficulty in obtaining them at any drug store.

SMALL WILL USE HIGHWAY PLAN AS ELECTION ISSUE

Meets with His Board at
Kankakee Fair.

BY FRANK BUTZOW.
(Picture on back page.)

Kankakee, Ill., Aug. 17.—[Special.]—Launching of the state's biggest road building program by Gov. Len Small as his first move toward a third term, possibility of nullification of the Illinois primary law by the Supreme court, and the trouble George E. Brennan is causing G. O. P. chieftains with his anti-Volstead issue as a candidate for United States senator, featured the political happenings of Illinois day at the Kankakee fair today.

The governor held a meeting with his highway advisory board, which consists of Senator Richard M. Morris (Rep.), Iroquois; Charles M. Hayes, president of the Chicago Motor club; F. R. Weillie, Vienna; A. R. Hall, Danville, and J. M. Page, Jerseyville. At this meeting it was announced that all but 17 1/2 miles of the original 41,000 mile trunk line system laid out in the \$60,000,000 road bond bill put through by Gov. Frank O. Lowden has been completed or placed under construction by spending the \$60,000,000 and \$25,000,000 of the \$100,000,000 bond issue approved two years ago.

Legislators today predicted generally that the assembly will refuse to pass a new direct primary law if the Supreme court upholds the decision of three Circuit judges in the Dixon suit under the bond issue law.

Republican scouts admitted today that the G. O. P. has the hardest fight it has faced in Illinois in many years as a result of the manner in which Brennan has stirred up the state with his anti-Volstead issue while his Republican opponent, Frank L. Smith, remains silent on the prohibition question.

In Republican centers like Peoria and St. Louis, party lines are being blurred to an alarming extent from a Republican standpoint, some of the news report. Chairman Johnson said he is not alarmed over Smith's prospects.

CALLS VANITY OF WOMEN MEANS TO LONGER LIVES

Considered as a weakness, the vanity of women actually is helping them to prolong their lives, Dr. O. Marvin Smith, Chicago dental authority, told a group of insurance men yesterday. Women's span of life, he said, has increased of late in greater percentage than that of men. He traces this, in part, to the fact that women give more care to their teeth. In their search for beauty women involuntarily prolong life.

BRITISH MINERS ORDER LEADERS TO SEEK PEACE

16 Weeks' Coal Tieup
Begins to Break.

BY DAVID DARRAH.

(Chicago Tribune Press Service.)

LONDON, Aug. 17.—The British miners today decided to open unrestricted negotiations for settlement of the sixteen weeks' coal strike. Prime Minister Stanley Baldwin was informed of the decision and the miners' leaders will attempt to confer with him on his return to London tomorrow.

Leaders Get Free Hand.

The decision, reached by the delegates representing the various coal mining districts, constitutes a mandate to the miners' leaders and gives them a free hand to resume the negotiations with the government and owners. It contains a vague warning that the question of longer hours must not be conceded.

The Welsh and Lancashire delegations made desperate efforts to maintain the former policy of "No surrender." The miners' hand has been forced for some days, however, in view of the increasing numbers who have returned to work and made separate agreements with the owners. The decisions are especially marked in the midland counties.

Defections Force Hunt for Peace.

These defections led to the conciliatory attitude of the leaders, who recently have recognized that all is lost unless an agreement is reached before winter.

The leaders declared separate agreements mean the disintegration of the whole federation. Today's decision, however, does not mean the immediate end of the strike. The most important point involved is the question of hours and unless the miners give in entirely on the extended day the government will not regard mediation on its part as having a chance for success, since the owners are more resolute than ever that the lengthened day alone will save the industry.

Plenty of Hot Water
after the Auto Trip

It is there—an abundance for every member of the family or party—if your home hot water supply is from an Ideal ARCO Tank. No waiting. Set the dial hand at the temperature wanted and instantly there's plentiful hot water, for all purposes. Six sizes, for home or business—for ANY coal, or coke, at \$84 up; for gas, \$66 up (freight extra). See it at your heating and plumbing dealers. \$10 down—pay remainder in 10 months. Write Dept. W for illustrated book (free).

HIT 1,000 PER CENT IN 1,710 ROBBERIES IN 44 CITIES, HE SAYS

Minneapolis, Minn., Aug. 17.—[Special.]—Tom Johnson, indicted today for the murder of Leonard Erdall last December, tabulated a list of 1,710 robberies and burglaries which he "swears" he committed in 44 cities and towns in the United States and Canada. Johnson was brought here last Saturday from Seattle.

Today he listed the 1,710 robberies and burglaries by gift, and at the bottom wrote: "I will wear on my belt that all these statements are the truth. I will confess the rest to the doctor."

Included in his long list of robberies were: San Francisco, 175; Los Angeles, 17; Butte, Mont., 25; Fargo, N. D., 12; Sioux City, Ia., 40; Omaha, 50; New York City, 178; Dallas, Tex., 10; Fort Worth, 6; and Galveston, Tex., 15.

Many of the robberies listed have been verified, it was said.

Johnson, son of Frank H. Burkhardt, principal cherry grower of the region, who conceived the idea of the dish to set before the American king.

MICHIGAN SENDS COOLIDGE CHERRY PIE, 46 POUNDER

Paul Smith, N. Y., Aug. 17.—[Special.]—Wallace H. Keop, Traverse City, Mich., the President's old college mate, Amherst, '24, motored in today with a forty-six pound cherry pie for Mr. and Mrs. Coolidge and with the best wishes from the cherry growers of the Grand Traverse region of Michigan.

Mr. Keop was accompanied by Hugh Burkhardt, son of Frank H. Burkhardt, principal cherry grower of the region, who conceived the idea of the dish to set before the American king.

The pie, which is thirty inches in

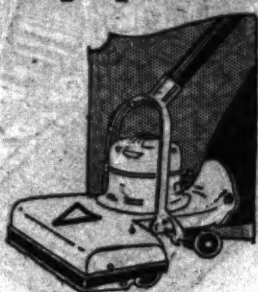

diameter, four inches deep, and contains 5,000 Montmorency cherries, "best for pie making," was baked Saturday afternoon by Hawkins, the Traverse City baker. It arrived in first class condition in a polished and decorated circular wooden box into which it neatly fitted.

Leaving Traverse City Saturday night, Mr. Keop broke all speed regulations to get the pie here in time for supper tonight. A speed cop in Canada threatened to jail him, but when he explained Mr. Keop was released as entitled to international comity.

DETECTIVE'S SON MISSING.
Sgt. George Schulzsky of the detective bureau yesterday asked fellow policemen to aid in his search for his son, John, 17 years old.

With the Fordson Tractor as a supplier of power, the Universal Power Shovel is a highly efficient and economical means of performing many duties, such as—excavating, general contracting, road building, quarry operations, clay and gravel pits, moving and loading sand, gravel, and stone, and general merchandise loading.

The Universal is a happy medium between hand digging and the costly steam shovel. It gets in and out of places where steam shovels cannot go.

Low both in first cost and upkeep, the Universal, with Fordson Power, handles one-quarter yard five times a minute. It is ready to serve its operator at a moment's notice. Write or phone for important information, and demonstration if desired.

Improved Atlas

A result of constant endeavor for improvement is the ultimate aim of every strong organization. This is exactly what OIL COMPANY has accomplished with the NEW IMPROVED ATLAS BURNER and we are positive we have now arrived at the LAST WORD in perfection with the ATLAS (vapor) BURNER.

We are offering the IMPROVED ATLAS (manual control) within reach of all, whether it be the HUMBLEST HOME or the most PALATIAL MANSION. \$250.00 installed.

Atlas Operates with Three (3) Controls

1—MANUAL. Turning the valve by hand to high and low fire.
2—THERMOSTAT. Automatically turns fire to high and low in accordance with desired temperature set on thermostat in room.
3—AUTOMATIC LIGHTING SYSTEM. With gas pilot. Turns fire completely out when desired temperature is reached and lighting again when thermostat calls for heat.

NUMBER (3) CONTROL affords you a service not surpassed by any other burner in the world at a cost much less than any other burner on the market today.

\$250
WITH 250 GAL. STORAGE

Atlas Oil Heat

The fact that our fore-fathers' were satisfied with the KEROSENE LAMP did not mean that the following generation would not take advantage of the universally used ELECTRIC LIGHT. It so applies today with the great advantage of OIL HEAT OVER COAL.

ATLAS OIL HEAT is clean, convenient, supplies even temperature at all times. What is more important in your home than heat? Why then should it not be supplied in the most EFFICIENT and CONVENIENT way?

THE ATLAS OIL BURNER answers these questions backed up by an old established company and THOUSANDS OF SATISFIED USERS.

ATLAS INSTALLATIONS in Chicago and Philadelphia are made under direct supervision of the manufacturer. This means MUCH to you. We are DIRECTLY interested in YOUR installation.

Announcement

We wish to formally announce the acquisition of the well known line of WILLIAMSON FURNACES which we are handling in conjunction with our OIL BURNER BUSINESS. The line includes furnaces for either COAL or OIL.

WILLIAMSON FURNACES have been ESTABLISHED as LEADERS in the heating field for over a THIRD OF A CENTURY and comprise a COMPLETE LINE of both CAST AND STEEL PLATE heaters suitable for COAL or OIL.

ALL FURNACE INSTALLATIONS ARE MADE in accordance with the NATIONAL STANDARD CODE which assures ABSOLUTE SATISFACTION.

COMPLETE INSTALLATION

CUBS SPLASH WHITEWASH ON GIANTS, 7-0
DEMPSEY'S LICENSE UP TO RICKARD: N. Y. COMISHTEX MARSHALS
LEGAL GUNS FOR
COURT BATTLEWill Ask Mandamus
Writ Today.

BY WESTBROOK PEGLER.

(Chicago Tribune Press Service.)

New York, Aug. 17.—The famous and hitherto omnipotent New York cauldroner today relinquished his power over the time being at least, its dread power over the cauldroners and their apocryphal bluffs by the light of the law, and announced that he would ask the court for a writ of mandamus to compel the state to issue a license to the recently discovered licensee committee and then told Tex Rickard that if he still wanted to produce a fight between Jack Dempsey and Gene Tunney he would have to go to court and overpower the license committee himself.

Although the prize fight profession has a constitutional aversion to the law, owing to certain peculiarities of its business methods, Mr. Rickard immediately summoned enough lawyers to prove that Dempsey was a quiet home girl and announced that he was about to bring suit in the New York supreme court for a writ of mandamus, which is said to be a terrible thing.

Dempsey Also to Ask Writ.

Mr. Rickard wants but little from the license committee, his sole desire being a small slip of paper which would authorize Dempsey to fight Tunney and enable Rickard to go ahead with a business deal involving, at a cautious estimate, \$1,000,000.

But victory for Rickard, another since Bubbling Over is out of the running. But victory for Rickard, another since Bubbling Over is out of the running. But victory for Rickard, another since Bubbling Over is out of the running.

Richard's lawyers are Chadbourne, Stanchfield and Levy, and the fact that Chadbourne, Stanchfield and Levy are involved in the business should be assurance that this mandamus will be a high class mandamus indeed. All of this is consistent with Mr. Rickard's avowed business policy of giving his customers nothing but the best, including mandamus.

It would seem that Mr. Dempsey's mandamus would be a bit superfluous in view of the elegance of the mandamus that Mr. Rickard expects to receive, but Mr. Rickard never has had any experience with these things and he desires to have a writ of mandamus in his own hand, and he is not a man who is easily satisfied.

Will File Suit Today.

The suits will be filed tomorrow, Mr. Rickard said, and although he doesn't know what it takes to make a writ of mandamus, he assumes that the mandamus of the honorable Mr. Justice will have all the required ingredients in stock and should be made delivery by the end of the week.

Mr. Paddy Mullins, general manager of the firm of Harry Wills, appeared before the cauldroner commission after the meeting and the commissioners who were so reluctant to issue a license to the Dempsey-Tunney fight, were so confused that they forgot why they had summoned him.

"What do you want here, Mr. Mullins?" asked Mr. Wills.

"I want for me," said Mullins.

"You told Mr. Mullins there must be some mistake," said Mr. Wills.

"The commissioners then took Mr. Rickard to task for his unethical conduct last week's meeting in offering Dempsey a proposition to hold a heavy championship bout between Dempsey and Harry Wills in consideration of the belief that no reasonable promoter can be found to take such a contest."

"I am returned to deposit \$500,000 for a Dempsey-Tunney fight," said Mr. Wills, "and I am prepared to hold the fight here in New York on Sept. 15, and my terms are accepted."

I HATE TO HAVE TO PAY THAT BALANCE OF \$60,000.00 THAT IS DUE ON MY EIGHTY ACRES—BUT MIN SAYS, I CAN'T SUBDIVIDE AND SELL LOTS UNTIL I HAVE A CLEAR TITLE TO THE LAND—I'VE PAID \$20,000.00 DOWN AND THOUGHT I COULD SELL ONE FOURTH OF THE LAND AND PAY FOR THE BALANCE OUT OF MY PROFITS—

IN THE WAKE
OF THE NEWS

POTPOURRI.

DISAPPOINTING as it must be to the young lady herself, tennis enthusiasts feel relieved that Miss Helen Wills has decided to forego the sport for the remainder of this season, thereby forfeiting her national title.

Indeed, most of us have wondered how she dared indulge in the strain of tournament competition so soon after an operation for appendicitis. As a good sportsman, Miss Wills disclaimed to default. Her physician so ordered. The California girl is too valuable a national tennis asset to take chances on endangering her net future.

After three successive defeats by Vinny Richards, Champion Bill Tilden sharpened his claws—if a tennis player may sharpen his claws—and reversed the result. As the Davis cup and national championship matches near, we're still straining with the old master.

Crusader's defeat in the venerable Withers stakes Saturday was irritating to those who had proclaimed the son of Man o' War 3 year old champion since Bubbling Over is out of the running. But victory for Man, another Man o' War colt, over the mile and one-quarter route does not settle the question. Man was off well. Crusader was almost left at the post and then finished fourth, with a performance more impressive than those finishing in front of him.

We took a friend out to Lincoln Fields Monday. French Lane and The Wake "exported" him until his bank roll was nearly flat when he rebelled and went on "his own." He quit \$12 winner. French and The Wake? Well, we had our railroad tickets, so we got back all right, but dinner was a bit tight. "We know too much," philosophized French ruefully.

A Song for Annette.

You are the only girl whose eyes are blue.

The only one whose hair is red as cherries.

The only one whose voice is like a melody.

The only one whose smile is like a sunrise.

The only one whose love is like a treasure.

The only one whose heart is like a garden.

The only one whose soul is like a star.

The only one whose life is like a dream.

WHAT A SUBDIVISION I'LL MAKE OUT OF THAT PRAIRIE—WIDE SHADY STREETS—WIRE GREEN, VELVET LAWNS IN FRONT OF EVERY BEAUTIFUL BUNGALOW, INSTEAD OF THE SAME OLD PRAIRIE—BUT I CAN'T SUBDIVIDE UNTIL I HAVE A CLEAR TITLE TO THE LAND—I'VE PAID \$20,000.00 DOWN AND THOUGHT I COULD SELL ONE FOURTH OF THE LAND AND PAY FOR THE BALANCE OUT OF MY PROFITS—

HYDE PARK STAKE
WON IN STRETCH
BY SMILING GUSGoldie Johnson Breaks
Collar Bone in Spill.

BY FRENCH LANE.

(Picture on back page.)

The ghost of MacChesney must have stalked down the stretch at Lincoln Fields yesterday while his old trainer, Charley Durnell, put on the whole show for \$6,000 racers by saddling three winners, including the late Goldie Johnson, who broke his collar bone in a spill.

Smiling Gus, the third winner, was ridden by L. J. Durnell, who was in the saddle for the first time in his career.

Johnson, who was in the saddle for the first time in his career, was ridden by L. J. Durnell, who was in the saddle for the first time in his career.

ST. LOUIS CREW
COMING FRIDAY
FOR TRIB RACEPlans Two Workouts at
Lincoln Park.

BY WALTER ECKERSALL.

(Chicago Tribune Press Service.)

New York, Aug. 17.—Rain stopped the pastime today in the sixth inning between the White Sox and Yankees, but not before the Sox had given the league leaders quite a thrumping. The official count was 5 to 3, but the Sox had a sixth run in the sixth inning and seemed to be in a mood to knock in several more.

In five innings they hammered out 11 runs, 10 hits and 10 errors, and ran the bases like rabbits.

They knocked Waite Hoyt out of the rubber in the first inning, when they drove in a cluster of four runs, and continued to make things distressing for Urban Shocker, who came to his rescue.

Connally Holds 'Em.

On the other hand, our Sergeant Connally, who is supposed to be only a bull pen performer, stepped out as a regular and his vulcanized arm snapped the ball over the plate as if it had come out of a slingshot.

Whether the Sergeant would have continued in his snappy style to the end of the ninth is something that will never be known. The boys weren't sorry to see the rain halt the battle while they were in front, because the Yankees have a habit of insinuating their rallies and pulling games out of the fire.

Ump Nallin was in charge of the contest and waited forty minutes before deciding enough rain had fallen to call the game off.

Game Finally Called.

With the fans yelling to play ball, the rain ceased after thirty-five minutes, and the umpire waded out on the field. Looking interestingly at the mud and water, he retreated again to the Yankee bench, where all the Yankees were eagerly waiting to continue. On the other bench the Sox were trembling for fear they would have to continue. After a second inspection, it was announced all was off.

For the third time in less than two weeks young Guy Bush was in possession of a two hit triumph and the Sox had the upper of the series by the topography margin of 7 to 6.

Briefly young Guy's performance was this: Two homers reached first base and one homer and a single were walked up.

Cubs Found McQuillen.

The Cubs were in such a belligerent mood that they ruined the prospects of master minding right at the outset. They plunked Hugh McQuillen for two runs in the first

**PROTECTED
TRUST
INVESTMENTS**

A Special Reserve Fund of \$2,000,000 protects against any loss occasioned by the failure to pay when due, principal or interest on an interest bearing trust investment having a definite maturity and made in our sole discretion.

The nature and extent of such protection are set out in a Declaration of Trust available on request.

ONE INDUSTRY REORGANIZES ITS BACKWARDNESS

BY HARPER LEECH

It is seldom that an American industry through its own organs of expression, speaks slightly of its progress. Therefore the following from the report of the heating research committee of the national district heating association is of unusual interest.

As the inevitable progress which attends every endeavor to a greater or less degree, until the last few years, few revolutionary ideas have fallen into the broad field of heating, or, if so, they have not been fertilized sufficiently to develop. With some exceptions, the industry is but little ahead of where it stood on the starting line along the infant electrical industry in 1890. Even allowing for the naturally great handicap the showing made by heating is pathetic in the extreme. In those pioneer days one could have predicted rapid growth in district heating, the merit of the idea being possible of comprehension; whereas a forecast of the marvelous strides, which electricity has taken, could only have existed in the wildest imagination.

Now, ironically enough, some of the very progress of the electrical industry may have held back the development of the wholesale distribution of heat from central stations. Concentration of power production in huge central plants of high efficiency, partly obtained by the turbine operating with condensers, made the supply of exhaust steam less than it would otherwise have been, and the incentive to develop wholesale heat production as a by-product of power was lessened. It would seem therefore that

the general heating industry may take another tack.

The failure of any American industry to progress on a plane with others means that opportunity is knocking at its door. In 1925 in 274 American cities apartment house accommodations for 17,514 families were provided. It is safe to say that 90 per cent of these apartment houses, if not 90 per cent, have individual heating plants.

There is no need for men of enterprise to await that probably distant day when heating will have evolved into a central station utility comparable to gas and electricity. Nor need the industry await the eventual solution of the problem of the most efficient use of fuel for power coupled, with an equal realization of the heat values. It will have to develop as water, gas and electricity did, from small units serving limited areas. In the long run, in St. Louis, Detroit, New York, Grand Rapids central heating for central business districts is making progress and by various approaches is evolving into a first rate utility. But in residential districts covered by apartment houses, apartment hotels and multi-family structures, there are opportunities for plantations, the industry is but little ahead of where it stood on the starting line along the infant electrical industry in 1890. Even allowing for the naturally great handicap the showing made by heating is pathetic in the extreme. In those pioneer days one could have predicted rapid growth in district heating, the merit of the idea being possible of comprehension; whereas a forecast of the marvelous strides, which electricity has taken, could only have existed in the wildest imagination.

Big Four Protective Committee Is Formed

New York, Aug. 17.—(AP)—Formation of a protective committee representing minority common stockholders of the Cleveland, Cincinnati, Chicago and St. Louis railway (Big Four) was completed today to oppose the consummation of the proposed lease of the road's properties to the New York Central, to negotiate for modification of the plan, or for the disposal of the minority common stock on fair terms.

The lease terms outlined by the New York Central called for an annual rental sufficient to guarantee a 6 per cent dividend on the common stock of the Big Four.

B. B. & R. Knight Inc. Reorganization

The Plan for the Reorganization of B. B. & R. Knight Inc. has been declared operative by the Bondholders Protective Committee, and the sale by the Trustees in Bankruptcy of all of the Estate of B. B. & R. Knight Inc. to B. B. & R. Knight Corporation which is the New Corporation described in the said Plan has been confirmed by the court.

The Bondholders Protective Committee desires that all holders of First Mortgage Ten Year 7 Per Cent Sinking Fund Gold Bonds of B. B. & R. Knight Inc. who have not yet deposited their bonds with the Committee be afforded an opportunity to participate in the benefits of the plan and to receive voting trust certificates for Class A Common shares of the New Corporation to the same extent as though they had already deposited their bonds.

The committee has therefore voted to accept further deposits of the above mentioned bonds until the close of business on September 1, 1926.

Deposits of bonds may therefore be made until September 1, 1926, at the office of the Depository or one of the Sub-Depositories named below. All bonds must be accompanied by the coupon due September 1, 1924, and all subsequent coupons.

(Affiliated with the First Trust and Savings Bank and The First National Bank of Chicago)

4 1/2% Farm Loan Bonds

Due September 1, 1926 Optional September 1, 1936 Due September 1, 1956

"Coupon Bonds \$1,000 and \$10,000 denominations, fully registrable and interchangeable. Principal and semi-annual interest, March 1st and September 1st, payable at First Trust and Savings Bank, Chicago, or the First National Bank, New York City. Redeemable at par and interest on September 1, 1936, or on any interest date thereafter.

Exempt from all Federal, State, Municipal and Local Taxes.
(Excepting Inheritance and Similar Taxes)

These bonds are direct obligations of the First-Trust Joint Stock Land Bank of Chicago and are secured by deposit with the Registrar of the Farm Loan Bureau of the United States Treasury Department of approved first mortgages upon improved farms in the Corn Belt District of the States of Illinois and Iowa.

The farm loans pledged equal approximately 39.70% of the appraised value of the farm lands and the insured permanent improvements thereon. The bonds are further protected by the equity of land values and also by the paid in capital stock of the bank, which carries double liability.

The Corn Belt District comprises the finest body of agricultural land of its size in the world. While it covers only 6% of the area of the United States, it contains one-fifth of the agricultural wealth of the entire country. This farming section has never had a crop failure and because of its fertile soil it will undoubtedly produce in abundance indefinitely.

Through the affiliation of the First-Trust Joint Stock Land Bank of Chicago with the First Trust and Savings Bank and the First National Bank of Chicago, its management is supervised by executive officers of these institutions, including the chairman and president of both banks.

"Always Be Prepared for the Unexpected"

—Roger Babson

"The business man and investor," says Mr. Babson, "should not look upon disasters as something out of the ordinary, but as normal events. For this reason I strongly recommend that business men carry insurance of every nature possible."

Failures and bad debt losses are certainly normal events. They may happen with startling irregularity or lack of warning—but they happen—plenty of them—year after year. In fact, because of their very uncertainty, bad debt losses are your biggest business risk. You simply can't tell when they are coming, or from what source. But you can safeguard against them, with American Credit Insurance.

Right now, one of your best customers may be on the verge of failure. Play safe—don't gamble with your book accounts. Protect them—get the worry of them off your mind—with one of our policies, written to fit your exact requirements.

Daughter Reflects Chatfield-Taylor's Talent for Drama

A bit of interesting news from the city is contained in a letter which was received by the Tribune from Mrs. H. H. Chatfield-Taylor, of Boston, the former Adelaide Chatfield-Taylor of Chicago, as the leading actress in a play to be given this week at Gloucester.

The play, "The Girl in the Red Dress," which was translated from the French by Grace George, will have a week's run at the dedication of the Gloucester hall, an artistic and theatrical recently completed as an addition to the Leslie Russell summer place at Gloucester.

Mrs. Whitman, who is the daughter of Robert Chatfield-Taylor of Chicago and Mrs. Barbara Chatfield-Taylor, is a theatrical actress, and has played a great deal of the charm of her late mother (Rose Farwell), who was one of the most popular women Chicago's theater ever knew. Her performance in the play is a reflection of the talent displayed by both branches of the family. Mr. Chatfield-Taylor and his second wife (Estelle Harbour Stillman of Detroit) are residing the summer in Gloucester and will stop in Chicago on their way west to see the Wayne Chatfield-Taylor in Lake Forest.

Mrs. Whitman also is on the committee arranging for the Junior Tennis tournament which is being played this week at the Montserrat club at Beverly, Mass., where the Whitman family spend their summers. Mrs. Whitman and her daughter, Ellen, played in the invitation tournament this week. Frederick C. Bartlett Jr., son of Frederick C. Bartlett of Chicago and Fort Lauderdale, Fla., is to play in this week's junior tournament, having for his partner Albert J. Beveridge Jr., son of the former United States senator from Indiana.

A note from Mrs. Charles Hallett Thorne of Lake Forest, who is spending the summer at the Moorings, Les Chateaux islands, Michigan, requests the announcement that the marriage of her daughter, Miss Leslie Thorne, to James Couper Doud of Monterey, Cal., has been indefinitely postponed. The date had been tentatively set for Sept. 15.

Mrs. Emmons Blaine of 101 East 9th street is departing within a few days to join Mrs. Emmons Blaine Jr. of Hubbard Woods, who is passing the summer at Martha's Vineyard, Mass. Mrs. Howard Linn of Lake Forest left on Monday for New York, from where she will sail today to spend a few weeks with her sister-in-law, Miss Mabel Linn, who has taken a house in London. Mrs. Linn is the daughter of Edward T. Blair, at Dinard, France, early in September.

Mr. and Mrs. Lester Armour and family of Lake Forest, who have had a house in England for the summer, are sailing in New York today and will spend a few days with Mr. Armour's mother, Mrs. P. A. Valentine at Southampton, L. I., before returning to Lake Forest. Anderson Valentine, who is residing in Chicago, is spending a week with his mother.

Mr. and Mrs. John Stuart of Hubbard Woods will come into town in the early autumn and will be at the Lake Shore Drive hotel for the winter. Mrs. Charles M. Hewitt of 1411 North La Salle parkway is spending the summer at Briarcliff Manor, N. Y. Mr. and Mrs. Ernest B. Graham of 21 Banks street have gone to New York to say good-bye to the William J. Chalmers, who are sailing on Saturday for a few months stay abroad.

Mr. and Mrs. Solomon A. Smith and Miss Mary Smith of Lake Forest have taken an apartment at the Lake Shore Drive hotel for the winter months. Mr. and Mrs. John Stuart Connelley and Miss Lydia Connelley of 1245 Astor street are in New York for a brief stay.

Mrs. John H. Winterbottom and Miss Rue Winterbottom of 40 East Huron street, who are spending the summer in the east, were guests at a dinner given on Saturday evening at the George Higgins place in Lenox, Mass.

EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published on "The Way Embarrassing Moments of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on the left side of the paper. No money returned.

New Way of Wearing Tie.
In the wash room at our office I noticed my necktie and slipped it over my head so as to dry it. After doing this I washed my face. After drying this and carefully washing my face and combing my hair I started into the office. After a moment or so it was discovered that my tie was down the back of my shirt instead of the front, where it belonged. I saw that a quick rearrangement was made, and embarrassed—yes, sir! K. C. M.

Hard on the Instep.
I am occasionally subject to dreams of extreme vividness. Also, I drive a big truck. This combination led to one of my most embarrassing moments. I was riding home on the L on a rainy day. The bus being out of commission at the time, I sat in one of those "face-to-face" seats and directly opposite me, her knees almost touching mine, was a rather good looking young woman. Presently I fell asleep and dreamed I was driving my little coupe a smooth country road. I opened the throttle wider and wider and the bus faster and faster. Suddenly, from a side road which I had not seen, a large car swung out and rushed toward me at frightful speed, directly in my path. I jammed my foot on the brake, bearing on it with my full weight. I heard a shriek, apparently from one of the occupants of the other car. Another shriek—and another still. I awoke. I was completely, and sure that the young woman upon which I was so frantically pressing was the instep of the young woman in the opposite seat. No wonder she shrieked! G. A. S.

Suddenly, from a side road which I had not seen, a large car swung out and rushed toward me at frightful speed, directly in my path. I jammed my foot on the brake, bearing on it with my full weight. I heard a shriek, apparently from one of the occupants of the other car. Another shriek—and another still. I awoke. I was completely, and sure that the young woman upon which I was so frantically pressing was the instep of the young woman in the opposite seat. No wonder she shrieked! G. A. S.

Hard on the Instep.
I am occasionally subject to dreams of extreme vividness. Also, I drive a big truck. This combination led to one of my most embarrassing moments. I was riding home on the L on a rainy day. The bus being out of commission at the time, I sat in one of those "face-to-face" seats and directly opposite me, her knees almost touching mine, was a rather good looking young woman. Presently I fell asleep and dreamed I was driving my little coupe a smooth country road. I opened the throttle wider and wider and the bus faster and faster. Suddenly, from a side road which I had not seen, a large car swung out and rushed toward me at frightful speed, directly in my path. I jammed my foot on the brake, bearing on it with my full weight. I heard a shriek, apparently from one of the occupants of the other car. Another shriek—and another still. I awoke. I was completely, and sure that the young woman upon which I was so frantically pressing was the instep of the young woman in the opposite seat. No wonder she shrieked! G. A. S.

WED WASHINGTON SOCIETY

Washington, D. C., Aug. 17.—(Special.)—The secretary of war, Dwight F. Davis, returned to Washington today after spending a short vacation with Mrs. Davis and their family at Islesboro, Maine.

Mrs. Champ Clark, widow of the former speaker of the house of representatives, who has been in Washington for two months, departed yesterday for Summit Point, W. Va., to make a short visit to Mrs. A. P. Thompson, mother of her son-in-law, James Thompson of New Orleans.

Representative and Mrs. Morton D. Hull of Illinois, who arrived today in New York from Europe, will come to Washington for a short stop en route to their home in Chicago.

Paul Henderson, formerly second assistant postmaster general, now general manager of the National Air Transport company of Chicago, is spending a few days at Wardman Park hotel. He is a son-in-law of Representative Martin B. Madden.

'NEW YORK SOCIETY'

New York, Aug. 17.—(Special.)—Mrs. P. H. Widener Ledy, who has been an almost daily visitor at the races at Saratoga for the last two weeks, is at the Ritz Carlton. She left today for Newport.

Miss Anne Huntington Tracy, daughter of Mrs. Charles Edward Tracy, will be married to Prince Simon Constantine Sidamon-Eristoff in the church of the Holy Innocents, Highland Falls, N. Y., at noon on Sept. 11.

Mr. and Mrs. W. Deering Howe, who have been at Saratoga for the races, have returned to their place, Linden Hill Farm, Jericho, L. I. Yesterday Mrs. Howe gave a small luncheon at Pierre's.

Mrs. Robert Bacon of 1 Park avenue, and Old Acres, Westbury, L. I., returned today from Europe. She spent abroad shortly after the dinner dance she gave at her Long Island home on June 4 for the crown prince and crown princess of Sweden.

The marriage of Miss Gloria Willmann to Edward L. Taylor, son of Mr. and Mrs. Edward H. Taylor of 3688 Pine Grove avenue, has been announced by Mrs. Taylor's parents, Mr. and Mrs. Carl O. Willmann of 2444 North Central Park avenue.

Chicagoans in Paris.

[Chicago Tribune Press Service.] PARIS, Aug. 17.—Chicagoans registered at the Paris office of The Tribune today included Mrs. Ethel Meall, Mrs. W. T. Davidge, Mrs. Ethel Newman, Liet A. von Neumann, Michael L. Stiver, Edward J. Schledensheim.

Mrs. Frederic W. Upham on Seville Commission

Paul Smith, N. Y., Aug. 17.—(Special.)—President Coolidge today appointed Mrs. Frederic W. Upham of Chicago, widow of the late Republican national committeeman for Illinois, to the American commission to the exposition to be held in Seville, Spain, next year for which congress appropriated \$200,000. The other members of the commission are former Gov. Campbell of Arizona, Miss Agnes Repplier, Philadelphia; John F. O'Brien, Pittsburg, N. Y.; George Cameron of California, and Roderick R. Matson of Wyoming.

Keeping Your Schoolgirl Complexion

By IRENE CASTLE

Copyrighted 1926 by P. O. Beauty Features

A Unique Soap

Created by experts for one purpose only—to safeguard your complexion

That's why, on expert advice, thousands are gaining the charm of natural loveliness through this simple daily rule in skin care

There are many places where experiment is safe. But not with the complexion. To endanger one's pretty skin is a folly.

Before Palmolive came women were told, "Use no soap on your face." For soaps then were judged too harsh.

Then came this famous beauty soap. A soap made by experts in skin care for one purpose only—to guard youth and charm. A soap made to be used freely, lavishly on the skin.

It changed the beauty situation throughout the world. It supplanted artificial beauty methods by the true. World's authorities widely urge it. The thousands of pretty skins you see today are largely due to it.

Wash, launder, scrub, with any soap you wish; but when beauty is at stake, take care.

This simple daily rule in natural skin beauty

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to

be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Get real Palmolive

Do not use ordinary soaps in the treatment given above. Do not think any green soap or represented as of palm and olive oils, is the same as Palmolive.

It costs but life the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Then note what an amazing difference one wash makes. The Palmolive Company (Del. Corp.), Chicago, Ill.

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to

Graceful Tiered Gown—By Corinne Lowe

NEW YORK.—(Special Correspondence.)—Shades are well up on many fashions. Particularly in this true of the front. That upward movement here is still a significant factor in our summer fashions and whether it be in jackets or in frocks we find that trend elevation of the waist line taking its part in the pageant of elaborate and wider skirt which celebrates our summer holidays.

In today's model of white georgette you will find a bit of self-material doing the expected thing by you. That front elevation is here accomplished in the society of two white buckles centered in green and it draws attention to an exceedingly unusual development of the bodice.

This bodice has proceeded on the theory that there is, after all, nothing quite so engaging as a jacket and vestee incognito. And so, although the model is one piece, the corsage takes on these lines. Its alias is fostered by rows of tiny buckles covered in self-material.

Too much cannot be said about the popularity of the plaited tier. In this case we have one of the most interesting variations of this mode which has yet been located, for the three tiers minister only to be the skirt front. In the back merely the top one is retained.

The under sleeves are also of white georgette and they are cuffed in triple fashion. As is also the case with the triple collar, a center formation of green georgette is employed.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Aunt Sue, The Tribune, Chicago.

Little Bonnie, aged 4, was much in love with her new baby sister. One evening the baby was crying and Bonnie kept insisting that mother feed the baby. To which mother replied that it wasn't time to feed her. Bonnie disgustedly replied, "well please feed her any how! She doesn't know what time it is!" Mrs. C. R. H.

Jane came over to Hilda's house every day, and although Hilda liked to play with her she wasn't satisfied always to play in her own yard. One day she plucked up courage to say, "I wish, Jane, you'd stay at home once in awhile, so I could go over and see you. I'd like to go visiting some times myself." E. M.

Little Ellen from Texas was visiting her grandmother and aunts for the first time. As she had always been taught to remember her daddy and mother in her prayers, she now added her grandmother and aunts, and then said, "Oh I can't think of any more customers." E. E. K.

Bobby, 29 months old, was playing on the beach at Lake Geneva when he saw a mother's child who was a large dog run into the water and begin to swim.

Bobby cried out, "Doggie, you dit out of the water! You have no bathing suit on!" Mrs. F. C.

Special Patterns by May Mantion

Order Corinne Lowe Designs by marking a circle, on picture, around the number, and another circle around the size, of each pattern wanted.

Tear out and inclose entire picture with 25 cents for each number. Send (with your full address) to: THE TRIBUNE MAY MANTION FASHION BUREAU, BOX 416, GRAND CENTRAL STATION, NEW YORK CITY.

Cultivate a Happy Mental State to Preclude Worry

"The declin' time," says Mrs. Wicks, "was the time for worryin'. You've done what you thought was best, now you want to stop thinkin' about it."

"Especially in this time of 'littles' things," says the authors of "Byways to Health," Drs. Thomas D. Wood and Theresa Danahill. "Maybe the other hat was more becoming; the other dress had more artistic lines; the other overcoat was the better value. Maybe the other vacation place was the more desirable; the other negative might have made a better looking picture. But the clothes are purchased; the vacation is in progress; the picture has been ordered. Refusing to bother about it again will help to conquer the habit of worry."

The habit of fretting, these physicians remind us, can grow until the mind is so steeped with anxiety that it is almost impossible to do an efficient day's work or to find happiness anywhere. If worry and fretting are present to a marked degree it is advisable to take an inventory of our habits. There also may be an organic need the attention of a competent physician. The cure then lies in following this advice.

In most instances Drs. Wood and Danahill state, worry is the result of faulty mental and bodily habits, changed or improved, help to produce a happy, satisfying mental state which precludes anxiety.

"Not enough sleep, little or no exercise in the open air, inadequate food, improper elimination, the physicians find the cause of unwholesome mental attitudes.

"If situations which cause worry and annoyance cannot be controlled, a vast amount of energy is conserved by finding the way to regulate them. If it is beyond the power to change these conditions, then the health and happiness way is to forget or to ignore them as far as possible."

BEAUTY ANSWERS

MISS F. M.: AVOID HEAVY meals at noon. Breads make an excellent luncheon dish and at this time of year you have a variety to choose from. There are lettuce, romaine, asparagus tip and tomato salads which are always popular. You may combine fresh green vegetables with hard-boiled eggs, and there are the many different fruit combinations. Use French dressing rather than mayonnaise.

MOLLIE: BITING THE LIPS IS what coarsens and hardens them. It is a most disfiguring habit and you should exert your will power to stop it.

ANGERS OF '98 SPECTACULAR ANNUAL PAGEANT

Line Reviewed at
Iowa Capitol.

Des Moines, Ia., Aug. 17.—(AP)—Delegates to the twenty-eighth anniversary of the United Spanish War Veterans and allied organizations here today reviewed the parade of the veterans, in which they were joined by members of the civil war veterans, regular army units and the National Guard and citizens' military camp students now in camp.

Thousands of marchers participated in the parade from the downtown district to the state capitol, where they were reviewed by officers of the various organizations and state officials.

All branches of the army of '98 were represented, colorful costumes and the procession a spectacular affair.

Business sessions of each organization were devoted to selecting officers for the coming year. The veterans also will decide on next year's convention site. In Des Moines, the San Antonio have been invited.

A successor to Carmel A. Thompson, national commander, who was elected to attend the encampment in Des Moines, will be William A. Dawson, of Chicago.

Nominations for senior vice commander include C. Neil Markham, Portsmouth, N. H., and William A. Dawson, Brooklyn, N. Y.

William A. Anderson of Omaha and William Birch of Indiana were nominated for junior vice commander.

PIONEER CHICAGO WOMAN IS DEAD IN SOUTH AT 96

Mrs. Mary Miller, who lived in Chicago for more than 60 years, died peacefully at her home, 223 East Delaware place, Friday afternoon. Interment will be at Graceland cemetery.

Mrs. Miller was the widow of John Miller, Chicago banker, who died in 1871. She was born in Xenia, O., shortly before the fire of 1871 and her husband moved to Chicago. She had lived here since then, passing many years of her life in South Chicago.

In addition to Mrs. Miller, Mrs. Miller is survived by three children, Mrs. A. Spencer of Los Angeles, John C. Miller and Walter E. Miller, who live at the home of her daughter, Mrs. J. O. Blain, in Columbia, S. C., after a short illness. She was 96 years old.

Question Companion of Man Found Dead on Track

William Cootnick, 113 Eleventh avenue, Madison Park, was arrested yesterday and questioned concerning the death of August Summers, 40 years old, who was found dead on the tracks of the Chicago and Northwestern railroad tracks last Sunday. Summers had been killed by a blow on the head. Cootnick, it became known, was with Summers a few hours before he was found.

Dr. A. H. Mueller's Wife Dies on Tour of Europe

Mrs. Florence S. Mueller of 730 Dupont avenue, Evanston, died on her tour of Europe, Austria, after a short illness of diabetes, according to a message received here yesterday. She was the wife of Dr. Augustus H. Mueller, prominent dentist, and had left for her trip several weeks ago for a European tour.

WANTED—MALE HELP.

FREE! NO COST. FREE!

NO OBLIGATION. A COURSE IN SALESMANSHIP

will be given absolutely free

by a nationally known sales

instructor. Positions guaranteed

to those who qualify.

We realize that there are

many men and women in

Chicago that would make

good salespeople if given the

opportunity. We also realize

that these same men and

women cannot afford to take

the time away from their

present employment nor can

they afford to pay to

learn salesmanship, so we

have engaged this instructor

on our expense. Remember,

there is NO COST, NO OBLI-

GATION, and it will in no

way conflict with your present

employment.

Apply Room 660,

Thursday at 8 p. m.,

31 S. Clark-st.

ALL PAY—NO WORK!

Many people probably have

read this ad and wondered

what it is all about.

The following people an-

swered it and made money

last week:

C. A. Anderson.....\$144.00

G. H. Carroll.....287.20

C. J. Hess.....148.60

You have the same oppor-

tunity. By giving one hour

of your time each week you

will show us how to make

more extra money each

week than your salary now

pays you.

Call Monday or Friday eve-

ning at 7:30 sharp.

HARRY A. ROTH & CO.,

Suite 608, 111 W. Monroe-st.

VOLUME LXX
RO
COOLIDGE W
ASK CANADA
HELP DRY
Seek Agree
Combine For
BY ARTHUR SEARS H
[Chicago Tribune From
Paul Smith, N. Y., AUG.
18.]—Canada is to become
the partner of the United States
in the enforcement of the
law it is an arrangement which
the administration is planning
into effect.
By virtue of this proposed
agreement Canada and the United
States are to enforce the law
as far as enforcement of the
law is concerned, would not
separate countries. They would
be under the same law.
Canada, rolling
back of bootleg liquor
United States, will be asked
to the illicit business.
Work Out Understate
Secretary of State Kellogg
announcing a three-day visit
to Canada with the President
and Canadian government
was learned tonight, in re-
sponse to a request from the
Canadian government. The
agreement is designed
to completely the supply
of liquor from Canadian sources
to the American prohibition
movement, where
it is prohibited.
This is one of the principal
of a new program of pro-
hibition which the Coolidge
administration is planning
for the country. As dry as the
rest of the world.
President Coolidge is expected
to be sworn in to the
prohibition. He has not
yet authorized that nation
on being the law, it must be
the better and to the
government's resources.
Andrew is to stay in
Bris. Gen. Lincoln C. An-
derson, secretary of the
charge of prohibition enforce-
ment to stay in office until
the present congress, and
order to carry out the
to clamp the Volstead
law. He has received the
from that he has the confidence
of the President.
With the agreement he
will be sworn in to the
prohibition. He has not
yet authorized that nation
on being the law, it must be
the better and to the
government's resources.
New Dry Act Amended
With the amendment
and act, the administration
to put through congress
the new act. The amendment
entirely the diversion
of alcohol to beverage
and to put a fatal crimp
on a large scale. If the
of drying up the supply
of alcohol, it is expected
to be impossible to get
a kick in it.
The arrangements with
the help of that
American dry law enforce-
ment by Mr. Andrews
representatives of the
prohibition. Gen. Andrews
will be sworn in to the
prohibition. He has not
yet authorized that nation
on being the law, it must be
the better and to the
government's resources.
The Measures U. S. V.
The measures Gen. An-
derson, secretary of the
charge of prohibition enforce-
ment to stay in office until
the present congress, and
order to carry out the
to clamp the Volstead
law. He has received the
from that he has the confidence
of the President.
These British govern-
ment attempted to
enforce. The British
to Canada and other
to be made the most
of the law, it is expected
to be impossible to get
a kick in it.
